

# RI TRANSPARENCY REPORT

# 2020

OP Wealth Management (OP Asset Management Ltd, OP Fund Management Ltd and OP Real Estate Asset

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the <u>PRI website</u>, ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the reporting period specified above. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information.

## **PRI disclaimer**

This document presents information reported directly by signatories. This information has not been audited by the PRI Secretariat or any other party acting on their behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented, and no responsibility or liability can be accepted for any error or omission.

## Usage restrictions

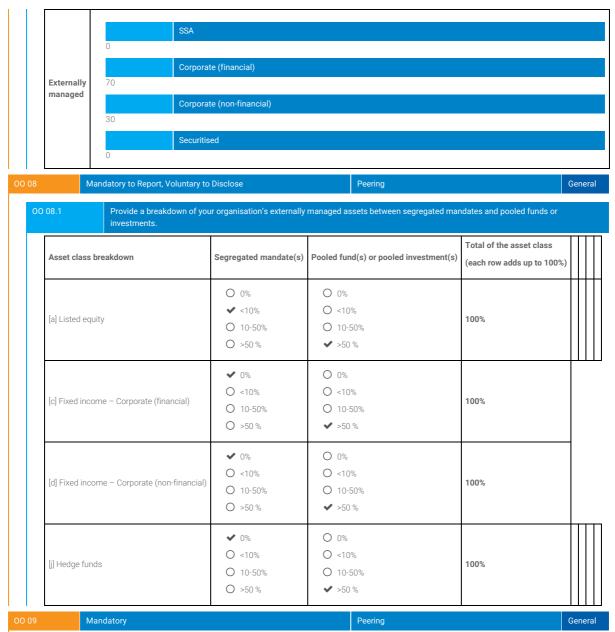

Public Transparency Reports are the intellectual property of PRI. Under no circumstances, can this report or any of its contents be sold to third parties.

new active ex process and meetings as manager ove As we appoir	Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection, appointment and monitoring processes. Hence is a standard part of the research we do prior to investing in the active funds of external managers. We have minimum ESG criteria for all kternal managers. Based on ESG due diligence, we evaluate the resources, organizational structures, depth of ESG integration in the research activity in participating in sustainability related initiatives. We also evaluate asset managers' approach to engagement and activity in general well as approach to exclusions, for example. In some cases the ESG personnel meets with the investment manager or discusses with the r the phone to form a better picture of the investment manager's approach to ESG prior to investment. Ant managers to manage white label funds for us, going forward we require the managers to sign a side letter to comply with agreed responsible the practices. So far such managers have complied with our demands even without the side letter.
basis. We org aims to atter	to monitoring, we send our questionnaire to the active external managers annually, to evaluate the status of the ESG process on a continuous ganize calls with the external managers that seem to have weaker ESG processes to encourage them to develop their approach. ESG staff also id the update meetings with the managers, as they visit our offices. In addition, a growing number of asset managers report regularly to us SG activities during the year.
00 11.5 We have a m	For your externally managed pooled funds, describe any mechanisms in place to set expectations as part of the appointment or commitment process.

	Oversight/accountability for responsible investment
	<ul> <li>Implementation of responsible investment</li> <li>No oversight/accountability or implementation responsibility for responsible investment</li> </ul>
SG 07.2	For the roles for which you have RI oversight/accountability or implementation responsibilities, indicate how you execute these responsibilities.
CIO wo head of process ESG the	nembers have oversight of the business conducted, including responsible investing. CIO reports to CEO on the issues, including responsible inv rks closely with the head of ESG in setting goals in responsible investing and also acts as the chairman of the responsible investing committee. IESG, with the help of ESG specialists, implements for example engagement and oversights fund managers and analysts action in investment and decision making. Fund managers and analysts implement responsible investing in their daily work. Some of the fund managers have part rme funds to manage. External managers implement responsible investing according to their processes and implement our exclusion policy (in abelled funds) set by us.
SG 07.3	Indicate the number of dedicated responsible investment staff your organisation has.

Brief description and measures of investment
The fund invests in companies whose carbon intensity is well positioned in the sector. The fund aims to halve the carbon intensity
compared to 'normal' fund operating without carbon focus.
The ethnical fund has wide exclusions and invests in only the best ESG-rated companies.

16.1	1 Describe how you address ESG issues for internally managed assets for which a specific PRI asset class module has yet to be develop or for which you are not required to report because your assets are below the minimum threshold.		
Asset Class	Describe what processes are in place and the outputs or outcomes achieved		
Private equity	Private equity funds we invest in go though a similar kind of process than our external fund managers in general. We are not very active in direct private equity investments so we would do the ESG analysis on a case by case basis.		
Hedge funds - DDQ	Select whether you have responded to the PRI Hedge Fund DDQ       O     Yes       ✓     No		
Hedge funds	Hedge funds we invest in go though a similar kind of process than our other external managers in terms of pre-investment due diligence and annual monitoring. We have a minimum responsible investing criteria for new hedge funds we invest in. We have worked closely with the managers, that are not so advanced in responsible investing and encouraged them to developed their responsible investing processes. We believe we have a special advantage in working with hedge funds on responsible investing, sinc one of our ESG specialists used to be a portfolio manager investing in hedge funds.		
Money market instruments	Our exclusion list and norm-based screening and engagament are applicable to our money market funds among other things.		
N	Iandatory Descriptive Gene		

17.1 Asset Class	Describe how you address ESG issues for externally managed assets for which a specific PRI asset class module has yet to be develor or for which you are not required to report because your assets are below the minimum threshold.
Hedge funds - DDQ	Select whether you use the PRI Hedge Fund DDQ O Yes VNO
Hedge funds	Hedge funds we invest in go though a similar kind of process than our other external managers in terms of pre-investment due diligence and annual monitoring. We have a minimum responsible investing criteria for new hedge funds we invest in. We have worked closely with the managers, that are not so advanced in responsible investing and encouraged them to developed their responsible investing processes We believe we have a special advantage in working with hedge funds on responsible investing, since one of our ESG specialists used to be a portfolio manager investing in hedge funds.

when the private and public sector are making investments directed at climate change and reducing its adverse effects. For the purposes of the fund, screening identifies companies that benefit from the described activities. Climate change must be a key driver of business operations. Similar method applies to OP Water Fund, where the business driver of the investee companies relates to water. OP Low Carbon Fund chooses companies among those that are best within their sectors when it comes to carbon intensity of their operations. OP Sustainable World fund also has an equity component and the fund screens for top ESG rated companies using both the overall rating and the 'letter' specific ratings as a screening tool. In thematic ESG funds we have introduced in 2020 fundamental layer on top of the quantitative portfolio management, which screens and evaluates our investment positions one by one, hand picking the best ones an excluding the worst ones.

  - Description

We rely on the expertise of Sustainalytics in screening our internally managed active listed equities. Sustainalytics screens our holdings twice a year for possible violations of international norms and standards. In addition, portfolio managers have unlimited access to a database maintained by Sustainalytics for monitoring companies for violations of international standards.

## LEI 04.2 Describe how you notify clients and/or beneficiaries when changes are made to your screening criteria.

Our responsible investment guidelines specify how we expect our investee companies to comply with universally applied international ethical norms and standards. The screening criteria are occasionally reviewed in connection with reassessing the principles for responsible investment. We notify our customers about any changes in connection with other customer communications. The screening criteria were re-examined in 2016 as certain coal related activities were added to list of avoided activities.

## LEA 01.6 Additional information [optional]

We engage with investee companies on many fronts. Most important aspects of our engagement are thematic engagements and international norms. However, we are active in other areas as well.

In 2019 we had four thematic engagement projects focusing on carbon, water, tax and plastics & the circular economy. In these engagement projects we targeted companies that have high risks related to the theme and disclosure and processes have room for improvement.

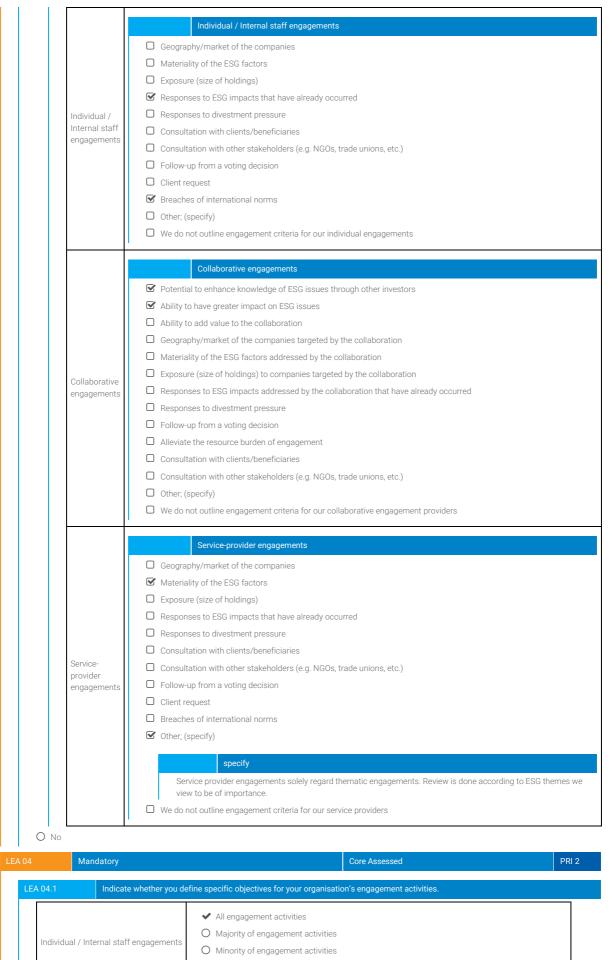

If there is a proven violation regarding international norms, we start an engagement process. The decision to start the process is done by the Committee for Responsible Investing. If the company response is lacking ambition or concept of seriousness, we will deal with the issue again in the Committee and may add the company to the exclusion list.

A more informal way to engage is in company meetings where we regularly discuss relevant ESG issues with the management. In addition to the above, we engage with companies in the domestic market on corporate governance issues before annual meetings. Engagament is typically conducted with the management or board members. Governance issues that we highlight are described in the OP Asset Management and OP Fund Managament Shareholder Engagement Principles 2019.

## PRI 1,2,3 LEA 02.1 Indicate the method of engagement, giving reasons for the interaction. Type of engagement Reason for interaction ☑ To influence corporate practice (or identify the need to influence it) on ESG issues ☑ To encourage improved/increased ESG disclosure Individual / Internal staff engagements ☑ To gain an understanding of ESG strategy and/or management $\hfill\square$ We do not engage via internal staff If To influence corporate practice (or identify the need to influence it) on ESG issues To encourage improved/increased ESG disclosure Collaborative engagements □ To gain an understanding of ESG strategy and/or management U We do not engage via collaborative engagements It influence corporate practice (or identify the need to influence it) on ESG issues ☑ To encourage improved/increased ESG disclosure Service provider engagements To gain an understanding of ESG strategy and/or management We do not engage via service providers Indicate whether your organisation plays a role in the engagement process that your service provider conducts. ✓ Yes Indicate the role(s) you play in engagements that your service provider conducts on your behalf. ☑ We discuss the topic of the engagement (or ESG issue(s)) of engagement ☑ We discuss the rationale for the engagement ☑ We discuss the objectives of the engagement We select the companies to be engaged with □ We discuss the frequency/intensity of interactions with companies $\hfill\square$ We discuss the next steps for engagement activity $oldsymbol{eta}$ We participate directly in certain engagements with our service provider Other; specify We play no role in engagements that our service provider conducts O No

Service providers do not conduct direct engagements on our behalf, solely thematic engagements. Our organization goes through and discusses the topic, rationale for engagement, objectives and company selection with the service provider prior to the start of the engagement. We also actively participate in the dialogues organized by the service provider and held between the company, investors and service provider.

LEA 09.5 Additiona	l informatio	on. [Optional]				

On the individual / internal staff engagements we have only included a number of companies we have systematically engaged with due to norms breaches. In addition, our portfolio managers discuss ESG issues in company meetings. The amount of those discussions has not been included in the numbers above.

.2 Describe your reasons for choosing a particular ESG incorporation strategy and how combinations of strategies are used.

All our direct active corporate fixed income securities are screened in a similar way as are the direct active equity investments. Integration is a separate incorporation although it also derives some information from the same database that holds information related to screening. Fund managers can choose companies from an investment universe that has screened out excluded items, like certain coal mining and manufacturers of illegal weapons. Fund managers and analysts integrate relevant ESG information into their investment decision making. The information can come from different sources like the ESG team, their company meetings that include ESG discussion topics, data vendors or from external ESG research. When it comes to SSA, our view is that credit ratings also mirror the ESG profile of the emitter, at least partially. In 2017 we introduced exclusion criteria also into the sovereign fixed income space.

CM1 05.2	Additional information [OPTIONAL]		

As we did a full review and assurance of our PRI report in 2017 and there hasn't been remarkable process changes for the year 2019, we didn't find it necessary to go through a full third party assurance yet. We are considering this however for next years' reporting again.
