Pohjola Bank plc Financial Statements Bulletin for 1 January-31 December 2013

Pohjola Group in 2013

- Consolidated earnings before tax amounted to EUR 473 million (372) and consolidated earnings before tax at fair value to EUR 456 million (790). Return on equity was 14.6% (11.2) and, excluding the effect of a reduction in the corporate tax rate, 12.4%.
- The Core Tier 1 ratio was 11.3% (10.6) and the pro-forma Common Equity Tier 1 (CET1) under CRD IV/CRR was 11.9%.
- The Banking loan portfolio increased by 5%. The average margin on the corporate loan portfolio improved to 1.57% (1.52). Impairment loss on receivables decreased to EUR 35 million (54) and the bank levy reduced earnings by EUR 17 million (-).
- Within Non-life Insurance, insurance premium revenue increased by 11% (10). The combined ratio improved to 91.6% (97.1). A reduction in the discount rate for pension liabilities decreased earnings by EUR 38 million (52). Excluding changes in reserves and amortisation on intangible assets arising from company acquisition, the operating combined ratio was 86.9% (90.5). Return on investments at fair value was 3.5% (10.8).
- Within Asset Management, assets under management increased by 16% to EUR 37.9 billion (32.8). Performance-based management fees amounted to EUR 4 million (15).
- Year on year, total expenses grew by 2%, or EUR 11 million, including the bank levy of EUR 19 million. Cost savings out of the EUR 25 million estimated for 2013 based on the efficiency-enhancement programme amounted to EUR 27 million.
- The Board of Directors proposes a dividend per share of EUR 0.67 (0.46) payable on Series A shares and EUR 0.64 (0.43) on Series K shares. This means a dividend payout ratio of 50%.
- Outlook for 2014: Consolidated earnings before tax in 2014 are expected to be higher than in 2013. In Banking, growth in the loan portfolio is expected to be at the same level as in 2013. Non-life Insurance's operating combined ratio is expected to vary between 87 and 91%. For more detailed information on the outlook, see "Outlook for 2014" below.

October-December

- Consolidated earnings before tax were EUR 92 million (92) and consolidated earnings before tax at fair value amounted to EUR 109 million (185). In Non-life Insurance, the reduction in the discount rate for pension liabilities decreased earnings by EUR 38 million.
- Combined net interest income from Corporate Banking and Baltic Banking was up by 18% year on year. The loan portfolio increased by one per cent and the average margin on the corporate loan portfolio remained at the September-end level. Impairment loss decreased to 5 million (20).
- Within Non-life Insurance, insurance premium revenue increased by 13% (13). The combined ratio was 101.4% (97.2) while the operating combined ratio was 87.9% (95.3). Return on investments at fair value was 1.4% (2.0).
- On 17 December 2013, the Finnish Parliament adopted the reduction of the corporate tax rate from 24.5% to 20% as of 1 January 2014. This change improved Pohjola's consolidated earnings after tax by EUR 65 million.

Outlook for 2014

Within Banking, the loan portfolio is expected to grow at the same rate as in 2013. Due to the operating environment, corporate investments are expected to remain below their normal level. The greatest uncertainties related to Banking’s financial performance are associated with volume developments and future impairment loss on the loan portfolio. Banking earnings before tax in 2014 are expected to be at the same level as or higher than in 2013. Insurance premium revenue is expected to increase at a rate above the market average. The operating combined ratio is estimated to vary between 87% and 91% if the number of large claims is not much higher than in 2013. Expected investment returns are largely dependent on developments in the investment environment. The most significant uncertainties related to Non-life Insurance’s financial performance pertain to developments in bond and capital markets and to the effect of large claims expenditure. Non-life Insurance earnings before tax in 2014 are expected to be higher than in 2013. The greatest uncertainties related to Asset Management’s financial performance are associated with the actual performance-based commissions and fees tied to the success of investments and the amount of assets under management. Asset Management earnings before tax in 2014 are expected to be at the same level as or higher than in 2013. The key determinants affecting the Group Functions’ financial performance include net interest income arising from assets in the liquidity buffer, any capital gains or losses on notes and bonds and any impairment loss that may be recognised on notes and bonds in the income statement. Group Functions earnings before tax in 2014 are expected to be lower than in 2013 due to lower interest rates and tighter liquidity regulation. Consolidated earnings before tax in 2014 are expected to be higher than in 2013. There is still great uncertainty about the economic outlook and the operating environment. All forward-looking statements in this report expressing the management’s expectations, beliefs, estimates, forecasts, projections and assumptions are based on the current view of the future development in the operating environment and the future financial performance of Pohjola Group and its various functions, and actual results may differ materially from those expressed
in the forward-looking statements.
