OP Financial Group's Corporate Governance Statement

1 CORPORATE GOVERNANCE AND MANAGEMENT

This Corporate Governance Statement of OP Financial Group has been prepared in accordance with the Act on Credit Institutions (CRD IV/CRR) and Chapter 7, Section 7 of the Finnish Securities Markets Act, and the Finnish Corporate Governance Code (2015) where applicable. The Statement has been issued separately from the Report by the Executive Board.

This Statement also covers some other key governance issues and the related, up-to-date information is available on OP's website at www.op.fi > OP Financial Group > About us > Corporate Governance.

OP Cooperative's Executive Board discussed this Corporate Governance Statement on 28 January 2019. The Audit Committee of OP Financial Group's Supervisory Board also assessed the Statement at its meeting. KPMG Oy Ab, OP Financial Group's auditor, has verified that the Statement has been issued and that the description it contains covering the main features of internal control and risk management systems related to the financial reporting process is consistent with the financial statements.

This Statement plus OP Financial Group's Financial Statements, Report by the Executive Board, Auditor's Report and Annual Review are available on OP's website at www.op.fi > OP Financial Group > To the media > Reports.

In their decision-making and corporate governance, OP Financial Group and its central cooperative, OP Cooperative, Financial Group (central cooperative), comply with the laws of Finland and standards issued by virtue of them. OP Financial Group's operations are specifically governed by the Act on the Amalgamation of Deposit Banks (Laki talletuspankkien yhteenliittymästä), the Act on Cooperative Banks and Other Cooperative Institutions, the Act on Credit Institutions, the Insurance Companies Act, the Act on Investment Services, the Co-operatives Act and the Limited Liability Companies Act.

Taking into account the specific characteristics of the cooperative system, OP Financial Group's Corporate Governance conforms, whenever applicable, with the Finnish Corporate Governance Code approved by the Securities Market Association in October 2015.

In addition, OP Financial Group follows the Code of Business Ethics in its operations.

2 STRUCTURE OF OP FINANCIAL GROUP AND ADMINISTRATIVE BODIES

2.1 Group structure

2.1.1 OP Financial Group

Established in 1902, OP Financial Group is a cooperative financial services group formed by independent cooperative banks and the Group's central cooperative with its subsidiaries operating under the principle of joint and several liability. OP Financial Group's success lies in a strong foundation of promoting the prosperity, well-being and security of its owner-customers, customers and business partners. Being a Finnish Group is an important part of its identity.

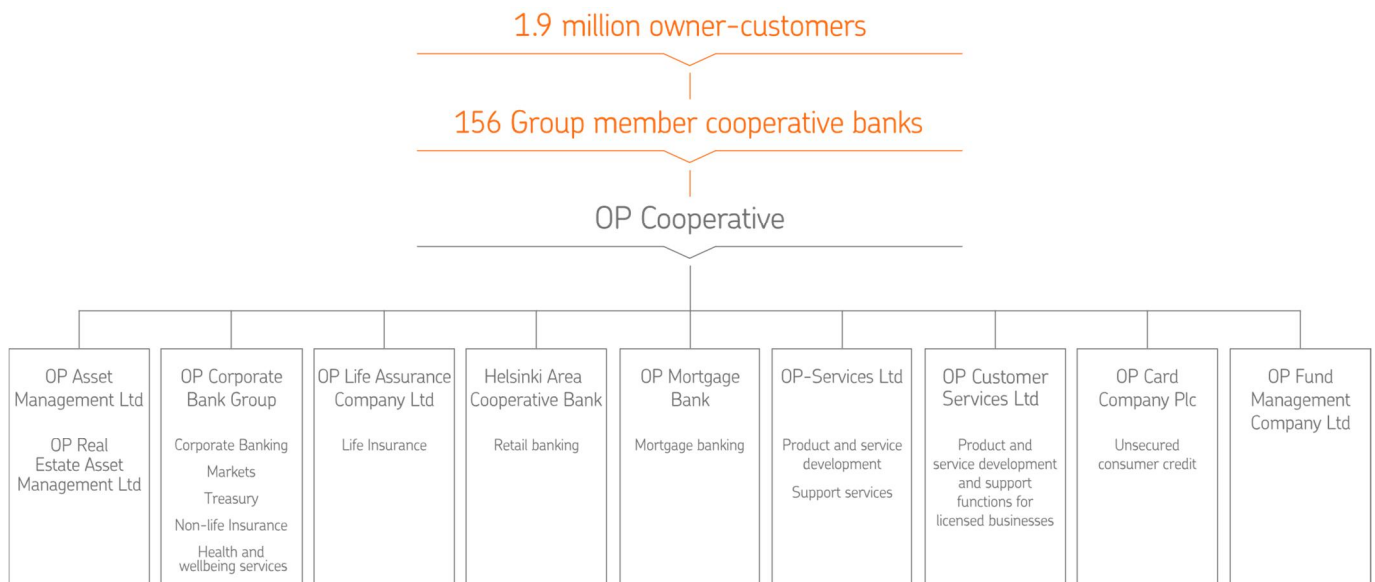

OP Financial Group consists of 156 member cooperative banks as of 31 December 2018 and their central cooperative, OP Cooperative, with its subsidiaries and affiliates. The

Group's operations are based on the cooperative principle – cooperation and sharing the fruits of success with everyone. Based on its mission, OP Financial Group creates sustainable prosperity, security and wellbeing for its owner-customers and in its operating region by means of its strong capital base and efficiency.

OP Financial Group's business is divided into three segments valid until the end of 2018: Banking, Non-life Insurance, and Wealth Management. The structure of the new business segments took effect on 1 January 2019. These new business segments are Banking for private and SME customers, Banking for Corporate and Institutional Customers, and Insurance Customers.

OP Financial Group consists of the following two parts:

1. An amalgamation in accordance with the Act on the Amalgamation of Deposit Banks
2. Other entities and organisations of OP Financial Group.

Credit institutions within OP Financial Group are liable for each other's debts. OP Financial Group is supervised by the ECB on a consolidated basis.

The amalgamation is formed by OP Cooperative (central cooperative), companies belonging to its consolidation group, the central cooperative's member credit institutions and companies belonging to their consolidation groups, and credit institutions, financial institutions and service companies in which the abovementioned institutions jointly hold more than half of the voting rights form the amalgamation.

OP Financial Group is comprised of the amalgamation and those non-amalgamation entities of which entities belonging to the amalgamation hold more than half of the total votes. The extent of OP Financial Group differs from that of the amalgamation in that OP Financial Group subsumes companies other than credit and financial institutions or service companies. The most important of these are the insurance companies with which the amalgamation forms a financial and insurance conglomerate. In addition, Pohjola Health Ltd, a hospital, belongs to OP Financial Group.

More detailed information on the legal structure of OP Financial Group's amalgamation can be found in the Financial Statements of OP Financial Group. The amalgamation does not form a corporate group, as referred to in the Accounting Act, or a consolidation group, as

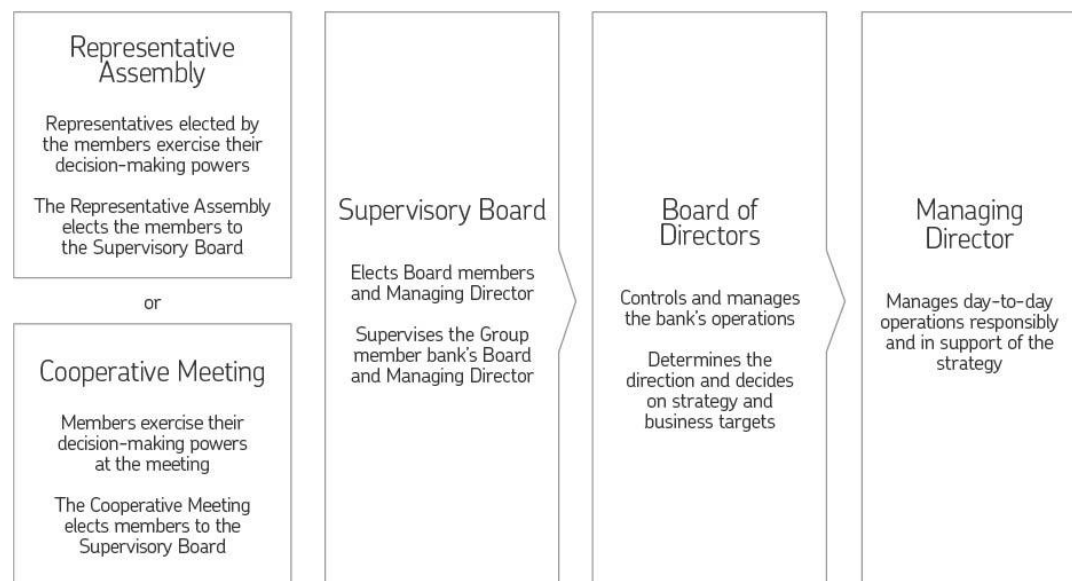

referred to in the Act on Credit Institutions. The central cooperative prepares consolidated financial statements as referred to in Section 9 of the Act on the Amalgamation of Deposit Banks.

2.1.2 OP cooperative banks

OP cooperative banks are independent, local deposit banks engaged in retail banking. They provide modern and competitive banking services to households, SMEs, agricultural and forestry customers and public-sector entities. Helsinki Area Cooperative Bank, which belongs to the central cooperative consolidated and whose governance model and structure differs from that of other OP cooperative banks, engages in corresponding retail banking in the Helsinki Metropolitan Area.

In terms of the type of their business organisation, the member cooperative banks are co-operatives whose basic values underlying decision-making include the one member, one vote principle. Within the OP cooperative banks, the owner-customers' decision-making power is exercised by the Representative Assembly comprising owner-customers or the cooperative meeting, which elects a supervisory board for the bank. The supervisory board in turn elects a board of directors for the bank.

Decision-making at a Group Decision-making at a Group member cooperative bank

The central cooperative's Supervisory Board has confirmed the Principles of Good Corporate Governance for the Group.

2.1.3 Cooperative bank federations

The cooperative bank federations are regional cooperation bodies for the member cooperative banks. Finland has six (6) cooperative bank federations.

The meeting of a cooperative bank federation comprising member cooperative banks elects the board of directors to represent the federation and attend to its affairs.

2.1.4 OP Cooperative and its responsibilities

The central cooperative of OP Financial Group is OP Cooperative in English and OP Andelslag in Swedish and is domiciled in Helsinki.

Within the central cooperative, the decision-making powers of member cooperative banks rest with the Cooperative Meeting and the Supervisory Board elected by it, and operational decision-making powers are exercised by the Executive Board acting as the board of directors elected by the Supervisory Board and being made up of management executives. The central cooperative's member banks own OP Cooperative.

The central cooperative's members may include credit institutions, as referred to in the Act on the Amalgamation of Deposit Banks, whose Bylaws or Articles of Association have been approved by the central cooperative. The Supervisory Board takes decisions on admitting new members.

The purpose of the central cooperative as the central cooperative of the amalgamation and as the company heading the financial and insurance conglomerate formed by OP Financial Group is to equitably contribute to and support the development of, and cooperation between, its member credit institutions, other OP Financial Group companies and entities and the entire Group. To that end, the central cooperative controls the Group's centralised services, develops the Group's business, manages the Group's strategic control and lobbying and manages control and supervision duties belonging to the central cooperative of the amalgamation and the company heading the financial and insurance conglomerate. Furthermore, the central cooperative acts as OP Financial Group's strategic owner institution.

2.2 Governance diversity

OP Financial Group has a long-term approach to planning the composition of administrative bodies. Effective work in administrative bodies requires that their members have sufficiently diverse expertise, skills and experience.

In preparing the selection of members of the administrative bodies, attention is paid to the person's added value to the body's composition in terms, for example, of fostering adequate diversity. Diversity is fostered by ensuring that the candidates have a wide range of knowledge, skills and experience, as well as the comprehensive representation of various regions and the balanced representation of genders and age groups on the administrative bodies.

The aim is that in the central cooperative's Supervisory Board and member cooperative banks' supervisory boards and boards of directors, both genders are represented in proportion of 60/40. To that end, the Group seeks to ensure on a long-term basis that of the candidates with equal strengths in terms of skills and experience is nominated a member of a governing body who represents a gender that is minority on the governing body.

2.3 Changes in OP Financial Group's structure in 2018

However, no single member may cast more than two per cent of the votes represented at the Meeting. In addition, the ALM and Risk Management Committee's duties were distributed among the ALM Council and the Risk Management Council.

5.4.1 HR Committee

The Committee controlled the prioritisation between the development plans and the resulting development portfolios for the purpose of implementing the OP Financial Group strategy and achieving the targets deriving from the strategy.

6 MANAGEMENT SYSTEM

6.1 Core values and the role of the Code of Ethics

OP Financial Group has defined core values guiding its operations, which, for their part, also serve as the Group's code of ethics. The Group's core values are as follows: People-first Approach, Responsibility, and Prospering together. In its operations, OP Financial Group also applies its Code of Business Ethics. The Code of Business Ethics provides an ethical framework for the conduct of all employees and members of governing bodies of OP Financial Group. In addition, ethics is guided by the general principles and guidelines governing the management of conflict-of-interest cases updated every year. These principles contain more detailed regulations and guidelines governing, for example, the identification and management of conflict-of-interest situations, compliance with good practice, acceptance of gratuities related to business, commitments and extramural activities

of management and personnel, personal and related-party transactions and decisions, and measures required in a conflict-of-interest situation.

6.2 OP Cooperative's structure and management system

The Supervisory Board confirms the division of responsibilities between the Executive Board's members while the Executive Board confirms the operational organisation of the central cooperative. Operational decision-making combines with legal decision-making through the Executive Board, whose control and supervisory responsibility covers the entire Group.

6.3 Management system of the central cooperative consolidated, and central cooperative subsidiaries

The board of directors of each central cooperative consolidated's subsidiary is responsible for due organisation of the company's administration and operations. When performing its duties, the board of directors must take account of OP Financial Group's strategic statements and other policy lines, confirmed principles and guidelines issued by the Supervisory Board of the central cooperative and the Executive Board concerning matters where the central cooperative is obliged or has the right to issue policy lines and guidelines regarding the entire Group.

The central cooperative's Executive Board makes proposals on candidates for the subsidiaries' boards of directors (excl. Helsinki Area Cooperative Bank), after which the board of directors is elected in a manner specified in the Articles of Association and laws in force. The central cooperative's Executive Board also discusses proposals for the managing directors of subsidiaries before their selection. The Group's guidelines on the management of conflicts of interest are taken into account in the selections.

The charters of the subsidiaries' boards of directors describe the duties of each board of directors. The boards of directors annually draw up an action plan showing a meeting schedule and the most important items on each meeting's agenda. The boards of directors annually assess their performance and working methods on a regular basis.

OP Financial Group's operational organisation in 2018:

OP Financial Group's operational organisation

7 INTERNAL AND EXTERNAL CONTROL

7.1 Internal control

Effective and reliable internal control forms the basis for compliance with sound and prudent business practices.

Internal control refers to procedures or practices within an organisation to ensure that the organisation achieves the targets set in the strategy, uses resources economically and the information in support of management decisions is reliable. Internal control also ensures that risk management, custody of client assets and protection of property is

adequately arranged. Conformance to regulations and approved ethical principles, too, are ensured through internal control.

The central cooperative's Supervisory Board confirms the Group-level principles of internal control that all OP Financial Group entities follow.

Internal controls cover all operations, involving all OP Financial Group entities and sites. The nature and extent of operations and, whenever necessary, special characteristics related to international operations are taken into consideration in specifying internal controls. Internal control covers all organisational levels. Internal control in its most extensive form primarily takes place at the operational level, where internal control is continuous and forms part of daily activities.

Internal control is complemented by the opportunity of anyone employed by OP Financial Group to report through an independent channel if they suspect that rules or regulations have been violated (whistleblowing).

7.1.1 Internal control responsibilities and organisation

The board of directors of each OP Financial Group entity is tasked with ensuring that internal control is duly organised, taking account of the Group-level internal control principles and the supplementary central cooperative guidelines. Each entity's managing director and executive management are responsible for ensuring internal control in practice and that duties are duly segregated.

The centralised functions of Compliance organisation, Risk Management and Finance and Treasury assist Group entities in ensuring internal control effectiveness. Internal Audit and external auditors ensure the effectiveness of internal control.

7.1.1.1 Internal control in 2018

Internal guidelines are used to support operational management, and compliance with these guidelines is subject to continuous supervision. In 2018, the Group checked the updatedness of Group-level control guidelines and updated them and further developed the guidelines related to practices and supervision of compliance with the guidelines.

The Supervisory Board's Audit Committee, in particular, has a major role in ensuring that internal control performs effectively and in compliance with regulation. Internal control observations, recommendations given to the business line/division concerned and the progress of the implementation of such recommendations are reported to the Committee on a regular basis.

7.2 Internal audit

Internal Audit is a function independent of business lines that audits the effectiveness and adequacy of OP Financial Group's internal control system, risk management as well as management and governance processes. Internal audit has been organised on a business organisation basis. All Group entities and functions are subject to internal audit.

The Supervisory Board of the central cooperative appoints and dismisses the Chief Audit Executive and decides his/her employment terms and conditions and compensation.

The Supervisory Board's Audit Committee adopts the Internal Audit action plan. Internal Audit reports on its audits to the central cooperative's Executive Board and Audit

Committee as well as to the management teams of functions. Audits for companies are reported to the governing bodies and management of the companies.

In its auditing work, Internal Audit complies not only with the Internal Audit Charter confirmed in June 2018 by the Supervisory Board but also the International Standards for the Professional Practice of Internal Auditing confirmed by the Institute of Internal Auditors (IIA).

Internal audit performance is subject to external quality assessment approximately every five years.

7.2.1 Internal audit in 2018

The Internal Audit action plan for 2018 covered audits performed in both the central cooperative consolidated and OP cooperative banks, with the focus on the assessment of the performance of Group-level processes. Planning the activities is performed on a risk basis. Around a quarter of the audits is required by regulation or the supervisor.

In its reports, Internal Audit issues recommendations for remedying any defects discovered. Internal Audit monitors on a real-time basis the progress of the implementation of the recommendations issued and regularly reports its monitoring observations to the Supervisory Board's Audit Committee and the management of the central cooperative consolidated.

7.3 Compliance

Managing compliance risks forms part of internal control and good corporate governance practices and, as such, an integral part of business management duties and the corporate culture. Responsibility for regulatory compliance and its supervision within OP Financial Group entities rests with the senior and executive management and all supervisors and managers. In addition, everyone employed by OP Financial Group is responsible for his/her own part for regulatory compliance.

Compliance assists senior management and executive management and business lines/divisions in the management of risks associated with regulatory non-compliance, supervises regulatory compliance and, for its part, develops internal control further. Guidelines, advice and support concerning compliance within OP Financial Group are the responsibility of the Compliance organisation that is independent of business. OP cooperative banks have their own designated compliance officers. Control, support and supervision of compliance activities for OP cooperative banks are performed through the network of contact persons formed by the designated compliance officers. As part of the central cooperative's Risk Management, the OP cooperative banks' operational risk management and compliance support has supported the attendance of compliance duties at OP cooperative banks.

Any observations made within compliance are reported regularly to the business line/division concerned, OP Cooperative's Executive Board and the Supervisory Board's Risk Management and Audit Committees.

7.3.1 Compliance in 2018

In 2018, risk-based focus areas in compliance included KYC regulation and ensuring compliance with legislation and official instructions related to the provision of investment services and with related Group-level guidelines and the performance of processes.

In its advisory services and business support, Compliance specifically focused on KYC practices and on ensuring compliance with the requirements under MiFID II regulation, effective since the beginning of the year, related to the provision of investment services. The same risk-based prioritisation was also observed in providing support related to training for business lines/divisions. Training is also aimed at enhancing knowledge of Group- and entity-specific guidelines.

In 2018, in addition to its regular control, advisory and supervisory duties, Compliance updated OP Financial Group's risk assessments for the amalgamation of cooperative banks concerning anti-money laundering and counter-terrorist financing and separately for Group entities not included in the amalgamation. Compliance has also been actively involved in projects aimed at ensuring that the business lines/divisions comply with the requirements of anti-money laundering and counter-terrorist financing legislation, MiFID II legislation governing the provision of investment services and data protection legislation.

Compliance activities and observations were regularly reported to the entities' and Group's senior and executive management in accordance with the Group-level guidelines.

7.4 Risk management and capital adequacy management

OP Financial Group's operations are based on cooperative ideals, a strong capital base and capable risk management. The aim is to ensure risk capacity in all circumstances and to keep risk-taking moderate relative to risk capacity.

Risk and capital adequacy management falls under internal control. Its purpose is to ensure the risk capacity and liquidity of OP Financial Group and its entities and, thereby, ensure business continuity. Risk and capital adequacy management has been integrated as an integral part of the Group's business and management.

Risk capacity is made up of effective risk management that is proportionate to the extent and complexity of operations and of adequate capital resources and liquidity based on profitable business operations.

OP Financial Group's significant risks include credit risks, market risks, liquidity risks, insurance risks, concentration risks, customer behaviour risks, and strategic risks, reputational risk and operational risks, including model risks and compliance risks, associated with all business operations. OP Financial Group adopts a policy of moderate risk-taking.

OP Financial Group's principles governing the Risk-taking System and the Risk Appetite Framework, adopted by the central cooperative's Supervisory Board, define how the Group's risk-taking is controlled, restricted and supervised and how the risk management and internal capital adequacy assessment process is organised.

Risk management and internal capital adequacy assessment process (ICAAP) involves:

- identifying, measuring, assessing and mitigating risks;
- determining reliably and independently how much capital and liquidity is required for various risk types and business operations; and
- allocating capital and liquidity systematically by business segment in line with current and planned risk-taking.

In OP Financial Group's risk policy, the central cooperative's Executive Board confirms annually risk-management principles, actions, objectives, limits and control limits, to be applied by Group entities, that are used to guide business to implement the policies confirmed in the Group's strategy and the principles of the Risk Appetite Framework (RAF).

The risk limit system ensures that OP Financial Group or any of its entities does not take excessive risks to endanger the Group's or the entity's capital adequacy, profitability, funding liquidity and business continuity. Group-level risk tolerances for capital adequacy and significant risks confirmed by the Supervisory Board specify the maximum Group-level risk appetite. In risk policy, target levels and qualitative targets as well as limits and control limits for segments and OP Financial Group entities are derived from these.

Risk and capital adequacy management's three lines of defence

The organisation and responsibilities of OP Financial Group's risk management and capital adequacy management are founded on three lines of defence shown below.

Three defence lines of risk management

I Operational risk management Applies the risk management framework <ul style="list-style-type: none"> • Risk management integrated as part of the operational units • Risk decisions and operational monitoring 	Responsibility for risk exposure and its monitoring
II Independent risk management "Owns" the risk management framework <ul style="list-style-type: none"> • Group's independent risk management function • Steering the risk decision process and managing consolidated risk exposure 	Responsible for conditions for good risk management and control
III Internal Audit Inspects and assesses the risk management framework and its application <ul style="list-style-type: none"> • Internal Audit • Independent audit function 	Responsibility for independent assessment of risk management

The first line consists of risk management applied within business and other operations. It supervises risk decisions and ensures that risk exposure and risk-bearing capacity are under sufficient entity-level control. Risk management is included in business models and processes.

The second line of defence consists of risk management and compliance independent of operational business organisations that is run from the central cooperative. Risk Management owns the Group's risk management framework, supervises the risk-decision process and is responsible for the Group's consolidated risk exposure and risk-capacity monitoring.

The third line of defence is centralised internal audit. It audits and evaluates both the Group's risk management framework and its application in the central cooperative and other Group entities.

7.4.1 Risk management in 2018

In risk management of the central cooperative, 2018 included monitoring external regulatory changes and continuing to prepare for regulatory changes.

Major risk management development projects included, for example, preparing changes in the financing process caused by a new more detailed definition of default, as well as systematising the credit risk control process of OP cooperative banks and increasing its scope. Development work also specifically focused on model risk management and preparation for updating IRB risk models until 2021.

Risk Management continued to further develop its risk management assessment processes and operational processes in order to ensure that controls related to risk management are automated so as to be part of all business and that risks are assessed proactively and sufficiently when developing new business. Risk Management has strengthened the development and validation process and extended the comprehensiveness of independent model validations. Risk Management has further developed the assessment practices of the sufficiency of capital and liquidity and the management methods of interest rate risk associated with the banking book.

In addition, Risk Management updated risk management guidelines, risk reporting and risk limitation. Stress tests have continued to play an increasing role in risk analyses. OP Financial Group participated in the stress test conducted by the European Banking Authority (EBA).

7.5 External control

7.5.1 Audit

OP Cooperative has one auditor, which must be a firm of authorised public accountants certified by the Finland Chamber of Commerce. The auditor shall also audit the consolidated financial statements as referred to in Section 9 of the Act on the Amalgamation of Deposit Banks.

The Cooperative Meeting shall elect the auditor. The term of office of the auditor expires upon the closing of the Annual Cooperative Meeting following its election. The Audit Committee of OP Cooperative's Supervisory Board puts audit services out to tender at some five years' interval (last time in 2018), on the basis of which it proposes eligible auditors to the Annual Cooperative Meeting.

The auditor's remuneration is payable based on the reasonable invoice amount presented.

The auditors are tasked with auditing the accounting, internal control, accounting policies, management accounting judgements, presentation and structure of the financial statements of OP Financial Group, its entities and sub-groups in order to obtain assurance that the financial statements of the Group and its entities have been prepared in compliance with the rules and regulations in force governing the preparation of financial statements and give OP Cooperative's shareholders and other stakeholders a true and fair view of the financial position, financial performance and cash flows of the Group. In addition, the auditors regularly issue other statements on the basis of specific regulation applicable to the sector. The Supervisory Board's Audit Committee annually assesses the quality of the auditor's performance and ancillary services and the independence of auditors and the statement of the ancillary services.

The auditors annually issue the Auditor's Report to the members of OP Cooperative in which they express their opinion on the financial statements and the Report by the Executive Board. Every year, the auditors submit to the Supervisory Board's Audit Committee an additional report, based on the EU Audit Regulation, where they confirm their independence, among other things. Based on their observations, they also draw up audit memoranda delivered to the OP Cooperative's Executive Board, the President and Group Executive Chairman, the Supervisory Board's Audit Committee, the CRO, Internal Audit and the Finnish Financial Supervisory Authority, according to the subject matter concerned. Whenever necessary, auditors also issue oral reports to the aforementioned persons and bodies.

The Supervisory Board's Audit Committee consults the auditor when dealing with the Group's annual accounts and interim accounts, as well as the accounting policies. The auditors have a statutory obligation to notify the Financial Supervisory Authority of any matters or decisions that put operations and the existence of licence requirements at risk, or that result in an opinion in the Auditor's Report other than the unqualified opinion, as referred to in the Auditing Act, or result in an auditors' remark as referred to in Chapter 3, Section 5 and Paragraph 4 of the Auditing Act.

7.5.1.1 Audit in 2018

KPMG Oy Ab, an audit firm, has acted as OP Cooperative's auditor since 2002, with authorised public accountant Raija-Leena Hankonen as the Chief Auditor since 2014. KPMG Oy Ab acts as the auditor of OP Cooperative Consolidated, or the central cooperative consolidated, with auditors appointed by KPMG Oy Ab acting as chief auditors. Auditors acting as OP Financial Group member cooperative banks' auditors also include other firms of authorised public accountants and authorised public accountants, in addition to KPMG Oy Ab.

Audit is based on audit plans. Aspects relevant to statutory audit included receivables from customers, investment assets and derivative contracts, insurance liabilities, the control environment and information systems related to financial reporting, valuation of development expenditure included in intangible assets and the transfer of statutory earnings-related pension insurance to an insurance company. Interim reports and financial statements bulletins are based on unaudited figures.

OP Cooperative Consolidated has used KPMG Oy Ab's advisory services related mainly to the comfort letters of bond programmes, ISAE 3402 verifications from the centralised services, the application of upcoming IFRSs as well as tax services and counselling.

Audit fees for statutory audit are based on an annual plan.

Audit fees paid to auditors totalled EUR 2.0 million (2.1), whereas assignments as referred to in Chapter 1, Section 1(2) of the Auditing Act totalled EUR 0.2 million (0.3), fees for tax counselling EUR 0.1 million (0.1) and fees for other services EUR 0.4 million (0.6). Non-audit services provided by KPMG Oy Ab to OP Financial Group companies totalled EUR 0.3 million and tax counselling EUR 0.1 million.

7.5.2 Control within the amalgamation of OP Financial Group cooperative banks

The amalgamation comprises OP Cooperative as the central cooperative together with its member credit institutions and financial institutions and service companies over which they exercise control. OP Cooperative controls the amalgamation's operations and provides the companies within the amalgamation with guidelines for risk management, good corporate governance and internal control with the aim of safeguarding their liquidity

and capital adequacy. The central cooperative may also confirm general principles to be followed by the member credit institutions in operations relevant to the amalgamation.

In addition, the central cooperative supervises its member credit institutions in the manner as referred to in the Act on the Amalgamation of Deposit Banks.

7.5.3 Regulatory supervision

OP Financial Group as a credit institution is supervised by the European Central Bank (ECB). The Finnish Financial Supervisory Authority oversees OP Financial Group's investment firms and insurance companies in Finland as prescribed in legislation governing financial and insurance markets. OP Financial Group's operations in Estonia, Latvia and Lithuania are supervised to an applicable extent by the national regulators.

8 FINANCIAL REPORTING PROCESS

The different financial management units subordinate to OP Financial Group's CFO take charge of not only the preparation of interim and annual accounts for OP Financial Group and Group entities, as required by financial accounting, but also of the production of management accounting reports, such as monthly reports on business performance. The Controller function within OP Financial Group also produces earnings forecasts and analyses the actual outcome in comparison with the forecasts and reports on any deviations.

This chapter, Financial reporting process, describes the main features of how OP Financial Group's internal control and risk management work with a view to ensuring that the consolidation group's financial reports give substantially true information on the company's and its consolidation group's financial performance and position. Group-level financial information correctly consolidated using sub-ledger accounting and OP Financial Group companies' information forms the basis of reliable financial reporting.

OP Financial Group uses Group-wide financial reporting and risk reporting to monitor the achievement of its business goals and financial targets, and these reports are regularly reviewed at executive management and OP Cooperative's Executive Board meetings. Financial information in financial reports is compared with related plans and any differences are analysed and the report also describes earnings outlook for the current year and for a longer period of time. The very same principles apply to the monthly financial performance and risk report prepared by the management. When preparing and examining the report, the management ascertains the accuracy and correctness of the financial results and reporting by analysing the performance and risk exposure and any deviations from targets.

External reporting is based, for example, on the International Financial Reporting Standards, the Finnish Limited Liability Companies Act, the Act on Credit Institutions, the Insurance Companies Act, the Accounting Act, and the standards and regulations issued by the Financial Supervisory Authority. OP Financial Group's shared principles are applied in the accounting, financial statements and consolidated financial statements of OP Financial Group companies. Responsibility for the interpretation of, guidelines on and advice on standards, other laws governing the preparation of financial statements and official accounting requirements as well as the preparation of and compliance with common accounting policies rests with OP Cooperative, OP Financial Group's central cooperative. Whenever necessary, the company turns to auditors who give a statement of the selected principles and interpretations.

8.1 Organisation of financial reporting

OP Cooperative's Executive Board is the highest decision-making body in matters associated with business control. The Executive Board must ensure that supervision of accounting and treasury is duly organised. It decides on reporting, procedures and qualitative and quantitative indicators used to assess operational efficiency and performance, discusses and approves the consolidated financial statements and interim reports.

The Supervisory Board's Audit Committee is tasked with assisting the Supervisory Board to ensure firstly that the central cooperative and OP Financial Group have in place an adequate and well-functioning control system to cover all operations and secondly that the OP Cooperative's accounting and treasury control is organised appropriately. To perform its tasks, the Committee discusses the Group's accounting policies and capital adequacy assessment principles to be submitted to the Supervisory Board for adoption. It also supervises for its part financial reporting by

- assessing the Group's financial statements and interim reports and the financial statements of the central cooperative consolidated;
- assessing the Corporate Governance Statement issued annually;
- assessing major or exceptional transactions and the related management judgement and estimates; and
- monitoring the financial statements process and supervising the financial reporting process as well as assessing the accuracy of financial reporting and its regulatory compliance.

The President and Group Executive Chair must ensure, in accordance with the Co-operatives Act, that the company's accounting is in compliance with applicable laws and treasury has been organised in a reliable manner. The OP Cooperative Finance and Group Treasury function is in charge of OP Financial Group's financial reporting.

The Group has centralised the preparation of financial statements and interim reports independent of business lines/divisions. OP Financial Group's shared systems are primarily used in reporting. Operational duties related to financial and management accounting have also been centralised at central cooperative consolidated level.

8.2 Independent assessment of financial reporting

As provided by law, auditors shall assess the accuracy of financial reporting. The auditors are tasked with auditing the accounting, financial statements and governance of the company and its consolidation group in order to obtain assurance that the financial statements have been prepared in compliance with the rules and regulations in force and give owners and other stakeholders a true and fair view of the financial position of the company and its consolidation group and its financial performance and cash flows.

In its process audits, Internal Audit also assesses, when applicable, the effectiveness and adequacy of financial reporting, and reports these audits to the executive management and the Supervisory Board's Audit Committee.

As part of the independent financial reporting assessment, auditors supplement the actual audit by inspecting the planning and effectiveness of controls within centralised functions according to ISAE 3402. Auditors report separately on this specific audit in accordance with this standard.

8.3 Financial reporting in 2018

OP Financial Group's financial statements were prepared in accordance with IFRS, applying IASs, IFRSs and SIC and IFRIC interpretations effective on 31 December 2018.

In 2018, OP Financial Group adopted the following standards and interpretations:

- IFRS 9 Financial Instruments. Adjustments made to carrying amounts were recognised in equity in the opening balance sheet on the adoption date of 1 January 2018. OP Financial Group has not adjusted comparatives for prior years.
- IFRS 15 Revenue from Contracts with Customers. OP Financial Group adopted IFRS 15 using the full retrospective transition method.
- Annual improvements to IFRS for cycles 2014–2016 (applicable mainly to accounting periods beginning on or after 1 January 2018). Minor amendments are annually made to standards through the Annual Improvements process. The effects of the amendments vary by standard, but they are not significant.
- Amendments to IFRS 2 and IFRIC 22 that took effect on 1 January 2018. The amendments did not have any major effect on OP Financial Group's financial statements.

9 REMUNERATION

9.1 Remuneration within OP Financial Group

Within OP Financial Group, financial remuneration consists of fixed and variable remuneration. Variable remuneration involves both short-term and long-term performance-based bonuses.

A sufficiently large amount of the total remuneration must remain fixed. The proportion of variable remuneration may not exceed 100% of the total amount of each beneficiary's fixed remuneration. OP Cooperative's Supervisory Board defines this appropriate, reasonable balance between the fixed and variable pay.

Variable remuneration comprises a long-term management remuneration scheme common to OP Financial Group member cooperative banks and the central cooperative consolidated and the personnel fund for all personnel as well as short-term schemes for each target group.

In its remuneration, the Group complies with provisions based on EU and national laws and guidelines issued by the European Central Bank, the Finnish Financial Supervisory Authority and other regulators. Remuneration policies governing OP Financial Group's employees and management are based on laws, provisions and recommendations applicable to the financial sector and on the Finnish Corporate Governance Code.

OP Financial Group's remuneration policy is consistent with sound and effective risk management and does not encourage excessive risk-taking. The remuneration schemes are in line with the core values, goals and targets, and the business strategy, and agree with the Group's long-term interests. Remuneration may not lead to a situation that could jeopardise the general reliability of the incentive scheme, an owner-customer's or customer's interests or the reputation of OP Financial Group or a Group company.

9.1.1 Decision-making related to remuneration

OP Cooperative's Supervisory Board and, depending on the matter concerned, OP Financial Group's Remuneration Committee, the central cooperative consolidated Executive

Nomination Committee, and boards of directors which review the application of the schemes and assess their effectiveness, deals with remuneration principles and policy lines within OP Financial Group.

For schemes applying to the entire Group, the decisions are made by the Supervisory Board or OP Financial Group's Remuneration Committee. A Supervisory Board member, who has no employment or executive contract with an OP Financial Group company, may be a Remuneration Committee member. Within the OP cooperative banks, remuneration-related decisions are ultimately made by each bank's board of directors.

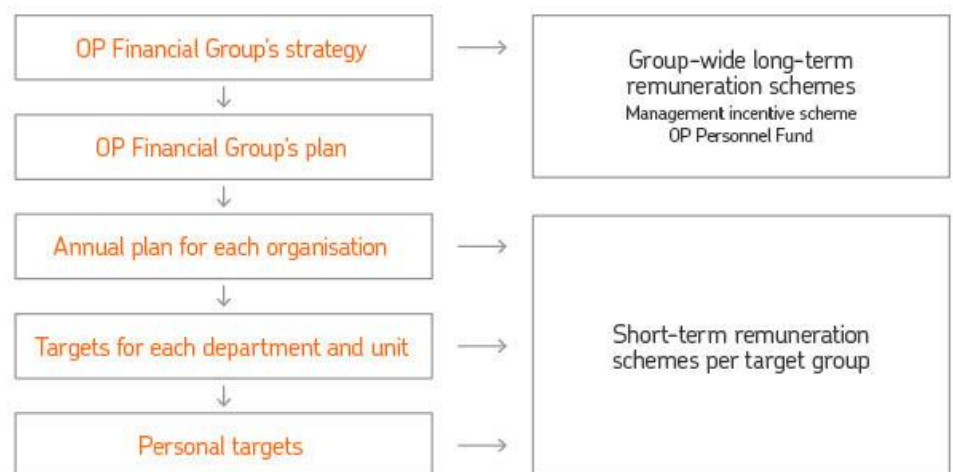

The Supervisory Board of OP Cooperative shall approve the Group's remuneration principles, decide on the long-term remuneration scheme, confirm the general terms and conditions of the Group's remuneration schemes and issue OP cooperative banks with binding instructions for short-term remuneration schemes. The Supervisory Board owns the long-term management remuneration scheme and decides on its metrics, target levels and maximum bonuses. Similarly, the Supervisory Board determines the metrics, target levels and maximum bonuses in respect of OP Financial Group's personnel fund as well. The Executive Nomination Committee subordinate to the Supervisory Board decided on issues related to remuneration for OP Cooperative's Executive Board.

By order of the Supervisory Board, OP Financial Group's Remuneration Committee set up by the Supervisory Board shall monitor and supervise the effectiveness and competitiveness of the remuneration schemes and the ability of the remuneration structures to support the Group's long-term goals and targets. The Remuneration Committee shall annually approve and revise the Group's remuneration policies.

The Supervisory Board's Remuneration Committee and the central cooperative consolidated's Executive Nomination Committee act as bodies in charge of preparing remuneration issues. The Remuneration Committee of OP Financial Group acts as a body in charge of preparing remuneration issues for OP cooperative banks' management.

Internal Audit reviews annually compliance with the remuneration and remuneration scheme approved by the Supervisory Board.

Remuneration at OP Financial Group

9.1.2 Remuneration of management and administration

OP Financial Group's Remuneration Committee annually issues a recommendation to member cooperative banks on management remuneration. Such statement involves a

recommendation on monthly emoluments and meeting attendance allowances of chairs and members of OP cooperative banks' supervisory boards and boards of directors.

The Cooperative Meeting decides on emoluments and other benefits payable to the members of OP Cooperative's Supervisory Board.

Monthly emoluments for 2018 confirmed by the Cooperative Meeting and payable to the Supervisory Board Chair, Vice Chairs and members are as follows: Chair 10,000 euros, Vice Chair 4,000 euros and other members 400 euros. Chairs other than those of committees acting under the Supervisory Board Chair receive 2,000 euros in monthly emoluments. In addition, all Supervisory Board members receive a meeting allowance of 600 euros for each meeting. Management and administration emoluments are paid in cash.

The Chair, Vice Chairs and members of the Supervisory Board are covered by voluntary pension insurance, as referred to in the Employees' Pensions Act (395/2006), through OP Bank Group Pension Fund.

Remuneration of OP Cooperative Supervisory Board Chair and members in 2018:

	Supervisory Board Chair	Vice Chair and other Supervisory Board members	Total
Regular monthly emoluments	120,000	276,900	396,900
Meeting allowances	18,600	237,546	256,146

Principles governing the remuneration and other benefits to the President and Group Executive Chair

The central cooperative consolidated Executive Nomination Committee of OP Cooperative's Supervisory Board determines the remuneration and other benefits to OP Financial Group's President and Group Executive Chair, and other Executive Board members and the Chief Audit Executive. A written executive contract, approved by the Supervisory Board, stipulates the terms governing the President and Group Executive Chair's employment.

His remuneration consists of the following three parts: 1) basic pay (salary and fringe benefits, based on the job grade, skills and performance); 2) short-term remuneration based on short-term performance (performance-based bonuses, based on the achievement of targets under the annual plan); and 3) long-term remuneration (OP Financial Group's common management remuneration scheme, based on the achievement of the Group's shared strategic goals and targets). The retirement age of the President and Group Executive Chair Timo Ritakallio is 65 years. Pension benefits are determined in accordance with pension laws and OP Financial Group's own pension plans. The President and Group Executive Chair is covered by OP Bank Group Pension Foundation's supplementary pension scheme. Pension accrued under the supplementary pension scheme may begin to be disbursed as a paid-up pension before the old-age pension if employment with OP Financial Group terminates.

The period of notice applicable under the President and Group Executive Chair's executive contract is six months. Upon termination of employment in cases specifically stipulated in the executive contract, the executive is entitled to a severance pay and a sum equivalent to his 12 months' pay.

9.1.3 Principles governing OP Cooperative's Supervisory Board remuneration

The Executive Nomination Committee of OP Cooperative's Supervisory Board determines the remuneration of and other benefits to OP Cooperative's Executive Board members, others reporting directly to the President and Group Executive Chair, the Chief Audit Executive and Chief Compliance Officer. A written executive contract, approved by the Supervisory Board, stipulates the terms governing each of the above-mentioned persons' employment.

Remuneration payable to the members of OP Cooperative's Executive Board and the Chief Audit Executive consists of the following three parts: 1) basic pay (salary and fringe benefits, based on the job grade, skills and performance); 2) short-term remuneration based on short-term performance (performance-based bonuses, based on the achievement of targets under the annual plan); and 3) long-term remuneration (OP Financial Group's common management remuneration scheme, based on the achievement of the Group's shared strategic goals and targets).

The retirement age of other Executive Board members who became members before 2018 and the Chief Audit Executive is 63 years. The retirement age of Executive Board members who became members in 2018 corresponds to the lowest pensionable age under TyEL. Pension benefits are determined in accordance with pension laws and OP Financial Group's own pension plans.

Executive Board members' supplementary pension cover has been arranged through OP Bank Group Pension Foundation and supplementary pension taken out with OP Life Assurance Company.

The period of notice followed by the employer for Executive Board members and the Chief Audit Executive is 6 months. Upon termination of their employment in cases specifically stipulated in their executive contracts, Executive Board members are entitled to a severance pay and a sum equivalent to a maximum of 6 months' pay.

9.1.4 OP Financial Group's short-term remuneration schemes

Short-term remuneration is aimed at guiding, engaging and encouraging employees to achieve annual goals and targets and perform successfully, ensuring the achievement of the goals and targets deriving from the strategy, and rewarding them for achieving and exceeding challenging targets. Performance periods in short-term remuneration schemes vary between 1 and 12 months.

The short-term remuneration schemes are based on metrics deriving from annual targets. Such metrics may be determined at Group-, company-, department- and employee level. Bonuses based on the short-term scheme come from achieving or exceeding the targets set for the metrics. In addition to personal performance, bonus payout requires the fulfilment of the conditions set for Group- and/or company-level remuneration.

OP Financial Group cooperative banks decide for their part short-term remuneration objectives and metrics on the basis of the guidelines issued by OP Cooperative's Supervisory Board. OP Cooperative's Executive Board determines remuneration for the central cooperative consolidated and the board of directors of each central cooperative consolidated entity confirms the inclusion of the entity in the remuneration scheme of the central cooperative consolidated.

Short-term remuneration in OP cooperative banks is based on shared bank-level targets and personal targets. Customer experience, sales and the strategy-based targets for growth and digitality are highlighted in the metrics.

The Group-level precondition for remuneration is that the Group's CET1 ratio on the payout date is over the CET1 buffer set by the ECB +3% on the payout date. In the central cooperative's remuneration scheme, the final amount of the bonus earned based on the metrics in the balanced scorecard is also determined OP Financial Group's EBT, OP Financial Group's operating expenses and customer experience. No bonus will be paid if the person's employment has terminated before the bonus payout. Bonus payout under the short-term scheme in OP cooperative banks requires that the bank's customer business show profit.

Short-term bonuses are mainly paid in cash. With respect to its identified staff, OP Financial Group complies with the legal requirements for the deferral of bonuses and their payment using an instrument other than cash in case variable remuneration exceeds a defined level.

Within each organisation, the decision-making body in charge of the remuneration scheme may change their terms and conditions of the short-term scheme, cancel it during the year or defer the payment of bonuses if there has been a change in circumstances which would place the company in an unreasonable situation when applying the scheme. An OP cooperative bank or the central cooperative consolidated may withhold payment of bonuses partly or fully citing its financial position.

Bonuses earned based on the balanced scorecard will be reduced before bonus payout if binding internal guidelines within the Group or task or regulatory requirements have been ignored and risk management elements have been materialised. Paid bonuses may also be fully or partly reclaimed if the beneficiary is found guilty of misdemeanours, of intentionally endangering the future of business, or of breaking the law.

9.1.5 OP Financial Group's long-term management remuneration scheme

The long-term management remuneration scheme, in which some 320 persons are included in OP Financial Group, consists of three performance periods.

Performance period 2014–2016

The primary performance metrics for the performance period of 2014–2016 included growth in the number of customers using OP as their main bank and insurer, OP Financial Group's EBT and Common Equity Tier 1 (CET1) ratio. In addition, the scheme takes account of profitability (return on economic capital) and capital adequacy under the Act on the Supervision of Financial and Insurance Conglomerates. No bonus will be paid out if capital adequacy under said Act is less than the minimum 130% on the date of payout.

During the performance period of 2014–2016, it was possible to annually earn bonuses equalling a person's regular 2–8-month salary subject to PAYE tax. The bonus will be paid to the beneficiary in cash in three instalments between 2018 and 2020. If the person is a member of identified staff and the total amount of variable remuneration exceeds the regulatory level, the bonus will be paid in four instalments between 2018 and 2021 (in six instalments to Executive Board members and the Chief Audit Executive between 2018 and 2023) partially tied to the value of the debenture loan issued by OP Corporate Bank.

Bonus payout includes conditions relating to the duration of employment or executive contracts and stipulations governing the hedging prohibition and the retention period.

Performance period 2017–2019

The targets for the performance period 2017–2019 are according to the strategy in force and they are based on OP Financial Group's EBT, customer experience and use of digital

services. No bonuses will be paid out if the Group's CET1 ratio is less than the CET1 capital buffer set by the ECB +3%.

During the performance period of 2017–2019, it is possible to annually earn bonuses equalling a person's regular 1–8-month salary subject to PAYE tax. The bonus will be paid to the beneficiary in cash in four instalments between 2020 and 2023. If the person is a member of identified staff and the total amount of variable remuneration exceeds the regulatory level, the bonus will be paid in four instalments between 2020 and 2023 (in six instalments to Executive Board members and the Chief Audit Executive between 2020 and 2025) partially tied to the value of the debenture loan issued by OP Corporate Bank.

Bonus payout includes conditions relating to the duration of employment or executive contracts and stipulations governing the hedging prohibition and the retention period.

9.1.6 OP Financial Group's long-term remuneration scheme for other employees

The long-term remuneration scheme for other employees is based on OP Financial Group Personnel Fund. Membership of the Fund is based on an employment contract. All those who have concluded an employment contract for an indefinite or fixed term with an OP Financial Group company belonging to the Fund are members of the Fund (excl. those included in the long-term management incentive scheme).

This long-term remuneration scheme is grounded on the achievement of OP Financial Group's shared strategic goals and targets. The Group-level targets and performance metrics under the scheme based on the Personnel Fund are congruent with the targets under the long-term management remuneration scheme valid at any given time. The board of directors of the company belonging to OP Financial Group's Personnel Fund shall annually decide on the amount of profit-based bonuses transferred to the Fund.

9.1.7 Remuneration to OP Financial Group's identified staff

Information required by the EU capital requirements regulation and directive concerning the remuneration of OP Financial Group's identified staff are published annually on OP's website.

Salaries and bonuses paid to other Executive Board members and the Chief Audit Executive totalled EUR 3,933,889.

The salaries and bonuses include the portion of the performance-based bonuses earned in 2017 and paid in 2018 as well as the portion of bonuses, based on the long-term management remuneration scheme, earned between 2014–2016 and paid in 2018. Payment of performance-based bonuses earned by the President and Group Executive Chair and Executive Board members for 2017 under the short-term scheme has not been deferred. The

deferral procedure is based on a procedure prescribed in the Act on Credit Institutions (610/2014), which is described in Note 50 of OP Financial Group's 2018 IFRS Financial Statements on variable remuneration.

The retirement age of the President and Group Executive Chair Timo Ritakallio is 65 years. The retirement age of other Executive Board members who became members before 2018 and the Chief Audit Executive is 63 years and the retirement age of Executive Board members who became members in 2018 corresponds to the lowest pensionable age under TyEL. Pension benefits are determined in accordance with pension laws and OP Financial Group's own pension plans. Executive Board members' and the Chief Audit Executive's supplementary pension cover has been arranged through OP Bank Group Pension Foundation and supplementary pension taken out with OP Life Assurance Company.

Supplementary pension insurance payments for 2018 totalled EUR 1,748.486. Due to changes in the supplementary pension plan for the Executive Board, some costs for 2017 became payable in 2018.

The President and Group Executive Chair is covered by OP Bank Group Pension Foundation's supplementary pension scheme. Pension accrued under the supplementary pension scheme may begin to be disbursed as a paid-up pension before the old-age pension if employment with OP Financial Group terminates. President and Group Executive Chairman Reijo Karhinen retired, based on his executive contract, when he turned 63 in January 2018. OP Bank Group Pension Foundation has charged a one-time payment, totalling EUR 534,539 for 2018, for an increase in the supplementary pension liability of Karhinen.

Supplementary pension costs have been published in the credit institutions' remuneration data collected annually by the European Banking Authority (EBA) in accordance with the capital requirements regulation (EU 575/2013) and directive of the (2013/36/EU, CRD IV) of the European Parliament and of the Council.
