# OP has solid capital adequacy compared to requirements

Leeway in buffers 9.2% (in CET1) and 7.6% (in total capital ratio)

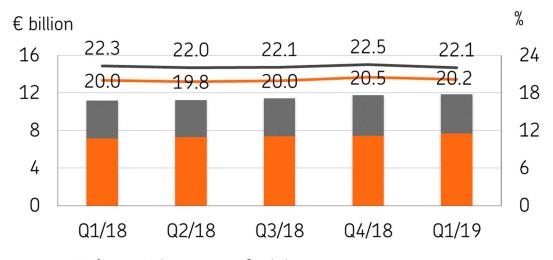

In June 2018, the FIN-FSA set a 2% systemic risk buffer on OP Financial Group, ie. a capital buffer requirement that will enter into force on 1 July 2019. At the same time, it also confirmed OP Financial Group's O-SII buffer requirement at 2%. Considering that these capital buffer requirements are parallel buffers and the larger one is applied, the decision will have no effect on OP Financial Group's total capital adequacy requirement.

  - RW floors decreased CET1 ratio by 1.9 pps
- FIN-FSA's 15% RW floor on residential mortgage loans came into force on 1 January 2018 and is valid for 2 years unless renewed
  - If OP had no ECB RW floors, FIN-FSA RW floor would decrease OP's CET1 ratio by 1.4 pps

  - No further effect on OP's CET1 ratio due to previously set higher RW floors

# EBT in 2019 expected to be lower than in 2018

Lower EBT in Q1/19 due to decreased net insurance income and negative overlay approach\* effect as well as higher expenses and impairments on receivables. EBT was eroded by non-recurring items such as changes made in the valuation model of derivatives and changes in the accounting practice of charges of financial authorities.
