- moved for a reason directly connected to maintenance or repair; or
- collected from the customer for maintenance or repair or returned to the customer after completion of such maintenance or repair.

In the above cases, the driver of the vehicle must be either the policyholder or a person for whom the policyholder is held liable in accordance with the Tort Liability Act, and the driver must have an appropriate driving licence.

## 4 Exclusions

The insurance does not cover any

- loss caused by theft or burglary, or any attempt thereat, of an appliance or object or any of its parts;
- damage caused as a consequence of fire or explosion to an appliance or object or any of its parts accepted for maintenance or repair or otherwise kept in the servicing point or its area;
- damage to property that is part of the policyholder's consignment stock.

## 320 Garage and service station

**1** Contrary to clauses 3.2.2, 3.2.3, and 3.2.18 of the general terms and conditions of Commercial General Liability Insurance, VA 01, the insurance covers damage caused to a customer's vehicle or any of its parts accepted for maintenance, repair, installation, inspection or storage,

with exclusions shown below. The insurance also covers any test drive related to the vehicle's service, inspection or repair work or damage caused to the vehicle when it is moved from one place to another, as well as damage caused to another vehicle in connection with such a test drive or transfer.

## 2 Exclusions

2.1 The insurance does not cover any loss caused by continuous carelessness.

2.2 The portion of work and spare parts, which consists of reperforming the work according to the original order, is deducted from the repair costs and the compensation for redemption of the loss coverable under the insurance. This deduction will be made even if such work is performed by a party other than the policyholder.

2.3 The insurance does not cover damage caused to a motor vehicle by a person driving it without an appropriate driving licence.

2.4 The insurance does not cover loss caused by malicious damage to or illicit use, theft or burglary, or any attempt thereat, of a vehicle, any of its parts or property inside the vehicle.

2.5 The insurance does not cover damage caused as a consequence of fire or explosion to a vehicle or any of its parts, or to property inside the vehicle. Such damage is not coverable even if it is caused in connection with or as a consequence of repair work.

2.6 The insurance does not cover damage to a vehicle that is part of the policyholder's consignment stock or that the policyholder has otherwise undertaken to sell.

2.7 The insurance does not cover damage to a vehicle moved by other than its own engine power outside the service station area.

## 321 Property being handled by or in the care of the policyholder

Contrary to clauses "Property in use" and "Damage caused to property being handled by or in the care of the insured party" in the general terms and conditions of Commercial General Liability Insurance (VA 01) and Global Liability Insurance (VA 11 and VA 12), the insurance also covers damage caused in the operations specified in insurance policy to property in the possession of, being handled by, in the care of, and subject to the safety or prevention obligation of the policyholder or the insured party.

On the basis of this special clause, the insurance does not, however, cover damage or loss caused to

- property stored with the insured party
- property hoisted by the insured party. However, if the insured party is a lifting service provider or road traffic cargo operator and the extension of the insurance has been specified in the insurance policy, damage to the cargo during hoisting is covered by the insurance in accordance with the Cargo handling insurance terms

and conditions (AKN 05). Contrary to clause 3.2.1 in the terms and conditions of Cargo handling insurance, the insurance also covers loss or damage caused while moving the cargo by a vehicle which operates without support legs. In cases of loss or damage to the cargo being hoisted, the insured party's deductible accounts for 10% of the loss amount, but no less than EUR 1,000, and no more than EUR 20,000 or a greater amount of deductible specified in the insurance policy.

- property rented by the insured party or property comparable to fixed assets and at the disposal of the insured party.

On the basis of this special clause, the insurance does not cover loss or damage in case liability for compensation is based on

- forwarding, warehousing or transport operations or the Road Transport Agreement Act, similar foreign acts, the CMR Convention or another Finnish or foreign act, regulation or agreement related to a mode of transport, or the forwarder's liability in accordance with the General Conditions of the Nordic Association of Freight Forwarders.

The maximum amount of compensation paid out from the policy during a single insurance period is the sum insured recorded in the insurance policy, which includes the loss prevention costs, expenses incurred from investigations, negotiations, interest payments and legal proceedings.

This clause cannot be applied to pay compensation for losses which insured parties have caused to each other.

In other respects, the general terms and conditions of the Commercial General Liability Insurance (VA 01) or Global Liability Insurance (VA 11 and VA 12) and the content of the insurance policy shall apply.

## 322 Excavation work

Contrary to clause 3.1 of the general terms and conditions of Commercial General Liability Insurance, VA 01, the insurance also covers losses caused by the policyholder, or his employee, while working with a construction machine under circumstances where the policyholder is, in accordance with the Tort Liability Act, comparable to an employee in relation to the party commissioning the work.

Before the work begins, the policyholder must acquire information on the location of any cables and pipes in the work area from their owner and take this location into account in performing the work. In the event of loss involving a subterranean cable, the insurance company must be provided with a written certificate from the owner of the cable or pipe proving that a map had been supplied or the cable or pipe locations had been shown on site before the work began.

If such certificate has not been supplied and an accident occurs, the deductible is not what has been put down in the policy, but 25% of the amount of damage, however, at least the deductible in the policy.

## 323 Boat repair shop

1 Contrary to clauses 3.2.2 and 3.2.3 of the general terms and conditions of Commercial General Liability Insurance, VA 01, the insurance covers damage caused to a customer's boat or any of its parts accepted for maintenance, repair, installation or storage, with the exclusions shown below.

### 2 Exclusions

2.1 The insurance does not cover any loss caused by continuous carelessness.

2.2 The portion of work and spare parts, which consists of reperforming the work according to the original order, is deducted from the repair costs and the compensation for redemption of the loss coverable under the insurance. This deduction will be made even if such work is performed by a party other than the policyholder.

2.3 The insurance covers damage caused to a boat or any of its parts while being moved or lifted only if such damage

- is caused inside the repair shop, within the area of the dock or repair shop or an area directly connected to it, or between the above-mentioned area and the nearest boat ramp;
- is caused by fall from a lifting apparatus or other equipment. The insurance does not cover any other damage to the boat or any of its parts caused by lifting;
- is caused when moving the boat by its own engine power because of maintenance, repair, installation, or the test drive, pick-up or return of a boat during work.

2.4 The insurance does not cover loss caused by illicit use, theft or burglary, or any attempt thereof, of a boat, any of its parts or property inside the boat.

2.5 The insurance does not cover damage caused as a consequence of fire or explosion to a boat or any of its parts, or to property inside the boat.

2.6 The insurance does not cover losses to a boat which is in the policyholder's consignment stock, which the policyholder is planning to sell or which is comparable to the policyholder's fixed assets regardless of who owns the boat.

## 324 Lessee's liability

Contrary to the terms and conditions of Commercial General Liability Insurance (VA 01) and the general terms and conditions of Global Liability Insurance (VA 11 and VA 12), under "Property in use" and "Damage caused to property being handled by or in the care of the insured party", the insurance covers a loss that has been caused to apartments or real estate property or the apartments' or real estate property's movable property either leased or held by the insured party.

Contrary to the exclusion clause "Road accident", the insurance also covers a road accident, caused to the insured party's leased apartment or real estate property, that is not covered by Motor Liability Insurance Act or corresponding foreign legislation.

This insurance is secondary to the real estate's fire insurance.

### 2 Exclusions

2.1 No compensation will be made for loss of or damage to a leased object caused by wear and tear, rusting, corrosion, smell, spoiling, moulding, rotting, the spread of fungus, material fatigue, obsolescence due to aging or other equivalent gradual phenomenon

2.4 The insurance does not cover a loss to property included in the insurance cover that results from factors, acts or circumstances on the basis of which the damage to the property was foreseeable.

### 3 Safety regulations

The insured must comply with the safety regulations given in the insurance policy, insurance terms and conditions or other instructions in writing. If the insured fails to comply with the safety regulations, any compensation payable to him/her may be reduced or disallowed under clause 6.3 of the General Terms of Contract.

3.1 Oil tanks and related oil pipelines of a building must for the first time be checked in their tenth year of use, and after this steel tanks must be checked every five years and other tanks every ten years. Heating oil must be removed from tanks which are no longer in use, the equipment must be neutralised and the feed connection must be removed before the beginning of the subsequent heating period.

3.2 When using water pipes and sewers, the user must keep a constant watch to ensure that the water flows into the sewer and there are no sewer blockages.

The sum insured per incident and during the insurance period is EUR 50,000 in total.

## 330 Property being handled by or in the care of the policyholder

Contrary to clauses 3.2.2 and 3.2.3 of the general terms and conditions of Commercial General Liability Insurance, VA 01, the insurance also covers damage to property being handled by or in the care of the policyholder during an activity specified in the insurance policy.

However, this special clause cannot be applied to compensate for losses to property leased by the policyholder or to property that is comparable to fixed assets used by the policyholder by some other arrangement.

Contrary to clause "Loss caused by use of watercraft or aircraft" in the general terms and conditions of Commercial General Liability Insurance (VA 01) and clause "Watercraft and aircraft" in the general terms and conditions of Global Liability Insurance (VA 11 and VA 12), the insurance also covers damage caused in the operations specified in insurance policy by the policyholders or insured party's remotely piloted aircraft (RAPS, Remotely Piloted Aircraft System and EVLOS, Extended Visual Line of Sight).

EVLOS means an operation in which the RPA observer observes the airspace surrounding the remotely piloted aircraft without the help of instrumentation and assists the remote pilot in the safe conduct of the flight.

Only bodily injury or material damage resulting directly from the piloting of an aircraft is covered on the basis of this special clause. For example, damage arising from

the violation of private life, pure financial losses or environmental damage will not be covered on the basis of the special clause. Neither does the insurance cover any loss insofar as the liability is based on a contract or other obligation, unless the liability would exist even without such an obligation being in force.

The aggregate maximum amount of all indemnities paid for losses during one insurance period, including any expenses incurred due to loss prevention, investigations, negotiations, interest payments and legal proceedings, is the sum insured indicated in the insurance policy.

In other respects, the general terms and conditions of the Commercial General Liability Insurance (VA 01) or Global Liability Insurance (VA 11 and VA 12) and the content of the insurance policy shall apply.
