Portfolio

Investment policy

OP-Nordic Countries Index Fund is a passive index fund whose assets are invested in accordance with the MSCI Nordic Countries Screened 20-35 Index in equities of largest listed companies in Sweden, Denmark, Finland and Norway. This means that the assets of the fund are distributed in the countries and companies constituting the benchmark index in the same proportions as in the benchmark index. Since the fund strives to replicate the performance of the benchmark index as closely as possible, it will only maintain a small cash position to pay for redemptions. In order to reduce securities transactions resulting from redemptions and subscriptions, the fund may use derivatives instruments in its portfolio management to a limited extent. Since the assets of the fund are invested in equities of the largest companies by market capitalisation, its investments may be concentrated significantly in certain sectors, such as industrials, financials and technology.

As a rule, the composition of the index changes four times a year. Due to corporate events, individual stocks may also change outside the regular index revisions. The index composition is obtained from the index provider on a daily basis through an automated process and any changes in the index are implemented in the fund as far as possible in the same way as they are implemented in the index. The aim is to minimize the active risk in relation to the index with a reasonable trading volume.

The Fund promotes environmental and social characteristics by considering investments' ESG factors as part of the investment process and through the exclusion of certain investment options. For more information about the ESG methods used, see the fund prospectus. The principle of 'do no significant harm' is only applied to those investments included in the fund which integrate the EU's criteria for environmentally sustainable economic activities. The EU's criteria for environmentally sustainable economic activities are not integrated in terms of other investments included in this fund.

OP Asset Management Ltd

Responsibility

Responsible investing

The fund follows OP Asset Management's principles for responsible investment. The consideration of responsibility in the investment analysis and decision making provides additional information in addition to the traditional financial and market information. The significant aspects of responsibility can in the long run affect the financial success of the investment objects and thus the return.

Exclusion

The fund excludes from its active, direct investments manufacturers of controversial weapons, mining companies that produce coal, electricity companies that use charcoal and companies that have violated international standards, and which have not been susceptible to impact. The list of excluded investment items is public.

Active ownership

OP's funds participate in domestic and foreign general meetings in accordance with OP Fund Management Co's Ownership Policy, which takes responsibility into account. All in all, OP's funds participate annually in more than one thousand general meetings. OP Funds utilize the Annual General Meetings Institutional Shareholder Services Annual General Meeting analysis.

Violation of international standards

International standards, such as the UN Global Compact, set the minimum level of responsible business operations. OP Asset Management affects through OP funds that make active, direct investments such companies that are considered to have violated international standards. The goal is to get companies that have violated the standards to change their business and start to comply with the international standards in their business. We use external service provider to identify violations of international standards.

Thematic impact

OP Asset Management also affects companies through various themes of responsibility, such as issues related to climate change.

Read more about the OP Funds' practical ownership influence in the overview of responsible investment that is published twice a year.

Further details on responsible investments are available on our [web page](#).

ESG-analysis

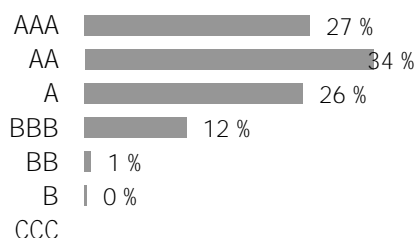

ESG Rating	AA	Carbon intensity	26,2	Green revenues	5,2 %
		greenhouse gas emissions in tonnes / turnover (\$M)			
ESG score	7,6			Renewable energy	2,2 %
Environment (E)	6,4	Coverage	100,0 %	Energy efficiency	1,5 %
Social (S)	4,8			Environmentally friendly construction	0,1 %
Governance (G)	6,6			Sustainable use of water resources	0,1 %
				Prevention of pollution	0,1 %

The ESG Score indicates how well the companies included in the portfolio take account of the risks and opportunities related to environmental concerns, social concerns and corporate governance concerns relative to their sector. The companies are scored from 0 to 10 and then divided into seven ESG Ratings (AAA-CCC). The higher the score, the better the companies included in the portfolio has prepared for ESG risks and opportunities.

The portfolio's carbon intensity is the weighted average of the portfolio companies' carbon dioxide intensity. The carbon footprint takes into account companies' greenhouse gas emissions in tonnes at level 1 and level 2 in relation to the company's turnover (million dollars).

The portfolio's green revenues examines how the portfolio companies' products and services have an impact on the environment. The number describes the proportion of products and services with a positive environmental impact on portfolio companies' turnover.

Distribution of companies' ESG rating

The portfolio's ESG analysis in relation to reference portfolios

	ESG	Carbon intensity	Green revenues
Portfolio	7,6	26,2	5,2
World	6,6	112,3	10,1
Europe	7,7	85,3	4,4
Finland	9,0	66,1	8,1

OP's mutual funds are managed by OP Fund Management Company Ltd, which is a fund management company and alternative investment fund manager licensed by the Finnish Financial Supervisory Authority. The portfolio manager of OP's mutual funds is the portfolio management company specified in the fund prospectus for OP funds. Investments always involve risks. The value of investments can rise and fall, and the investor may lose part of or all the invested funds. Past performance does not predict future returns. If the mutual fund is marketed outside Finland, OP Fund Management Company Ltd may decide to end such marketing. Before making an investment decision, take all the characteristics or objectives of the fund into consideration, as described in the fund prospectus for OP funds and other documents related to the mutual fund. Before you make any final investment decision, read more about the fund's Key Information Document, the fund prospectus and rules. The main risks associated with mutual funds can be found in the Key Information Document, and a more detailed list of risks in the fund prospectus. The Key Information Documents and rules for mutual funds are available from the Asset Manager and website www.op.fi/private-customers/savings-and-investments/funds/all-funds. The fund prospectus and the summary of investors' rights in mutual funds are available on OP's website www.op.fi/private-customers/savings-and-investments/funds/ops-fund-publications.
