This PRIIP is authorised in Finland.

OP-Fund Management Company Ltd is a part of OP Financial Group.

Publishing date of the KID 13 Sep 2024

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

This product is an alternative fund (AIF).

Term

The product is an open ended product without a maturity date. The manufacturer is entitled to terminate the product unilaterally. The product cannot be terminated automatically.

Objectives

OP-Alternative Portfolio is a fund the objective of which is to achieve a high yield in the long term relative to the risks taken by the Fund, by investing assets in compliance with the Fund's rules. The Fund has no official benchmark index. It is an AIF fund within the meaning of the Finnish Act on Alternative Investment Funds Managers, which means that it is not bound by the rules applicable to normal mutual funds in respect of, for example, its investment activities, borrowing and time limits for orders. The Fund invests its assets mainly in alternative investments. These include, for example, real property, such as real estate, infrastructure, forest and agricultural land as well as private equity investments, such as unlisted equities and secured and unsecured loans to companies. It is typical of these investment vehicles that they lack a liquid secondary market, and so the investments are illiquid in nature. In addition, the Fund may invest in other alternative investment vehicles that most often are also liquid, such as hedge funds. The Fund's investments are mainly made through other mutual funds, but it may also invest directly in alternative investment vehicles in so far as the Fund's rules allow. Additionally, the Fund invests some of its assets in liquid fixed-income investments. In normal market conditions, the Fund's target is to provide high returns that are independent of traditional asset classes, at a moderate level of risk. The Fund's investments are chosen so as to incorporate as wide a range of different alternative investment strategies as possible. The investment universe is global, and the Fund may decide to hedge some or all of the currency risk. The Fund's investment portfolio may be partially funded through borrowing. Similarly to normal portfolio management policies, the Fund may rely primarily on standardised derivatives to manage its equity, interest rate and currency risks.

The fund has no official benchmark index. Borrowing enabled by the fund rules may increase the fund unit value fluctuation. Any income received from the investments of the fund is reinvested in the fund.

The investments underlying this fund do not take into account the EU criteria for environmentally sustainable economic activities. However, this fund integrates sustainability risks using the methods specified in the fund prospectus.

The Fund uses an absolute Value at Risk (VaR) analysis to monitor total risk. The Fund's VaR may not exceed 20 percent of the Fund's value. More information on VaR calculation can be found in OP Fund Management Company's fund prospectus.

The fund's minimum subscription is 1000 EUR. If a subscription or redemption order is received by 16.00 on the last business day of a given quarter, the subscription order shall be executed at the fund unit value quoted on the last Business Day of that quarter and the redemption order on the last Business Day of the next quarter.

Intended retail investor

The product is aimed at investors with some financial experience and who understand complex product features. The investor's main objective is to generate revenue. The product is suitable for investors who do not require capital protection. Investors are prepared to keep their investment for 5 years but want to retain the option to exit early if necessary.

The depositary of the Fund is OP Custody Ltd. The Fund's rules, prospectus and more information are available in the languages used to market the fund. The annual report and half-yearly report are available in Finnish. The documents are available free of charge at <https://www.op.fi/private-customers/savings-and-investments/funds> and at OP branches.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
◀ Lower risk						Higher risk ▶
 <p>The risk indicator assumes you keep the product for 5 years.</p> <p>The actual risk can vary significantly if you cash in at an early stage and you may get back less.</p> <p>You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.</p>						

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are very unlikely to impact the capacity of OP-Fund Management Company Ltd to pay you. Other relevant risks not included in the risk indicator: liquidity risk, equity market risk, currency risk, credit risk, interest rate risk. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 €	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose all of your investment.		
Stress	What you might get back after costs	3,658 €	4,216 €
	Average return each year	-63.42%	-15.87%
Unfavourable	What you might get back after costs	8,685 €	9,953 €
	Average return each year	-13.15%	-0.09%
Moderate	What you might get back after costs	9,691 €	11,350 €
	Average return each year	-3.09%	2.57%
Favourable	What you might get back after costs	10,661 €	12,492 €
	Average return each year	6.61%	4.55%

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The figures shown include all the costs of the product itself, and include the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The RHP unfavourable scenario occurred for an investment between 30 Jun 2023 and 30 Jun 2024. The RHP moderate scenario occurred for an investment between 31 Aug 2017 and 31 Aug 2022. The RHP favourable scenario occurred for an investment between 31 Dec 2014 and 31 Dec 2019.

What happens if OP-Fund Management Company Ltd is unable to pay out?

The fund's assets belong to its unitholders and the Fund Management Company can only charge those expenses from the fund which under the fund rules are payable to the fund management company. If the Fund Management Company becomes insolvent, the fund's depositary must begin managing the duties of the Fund Management Company and, at the same time, immediately take measures for handing over the mutual fund's management to another fund management company or merging or terminating the mutual fund. Mutual fund investments do not fall within the scope of any compensation or guarantee schemes.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your product.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 euros is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	844 €	1,626 €
Annual cost impact (*)	8.44%	3.06%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.62% before costs and 2.57% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	1.00% of the amount you pay in when entering this investment.	100 €
Exit costs	5.00% of your investment before it is paid out to you.	500 €
Ongoing costs		
Management fees and other administrative or operating costs	2.58% of the value of the investment annually. This is an estimate based on the calculations of the party responsible for the product. This cost is taken into account in the daily price of the investment object.	258 €
Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. This cost is taken into account in the daily price of the investment object.	0 €
Incidental costs taken under specific conditions		
Performance fees	The impact of the performance fee. We take these from your investment if the product outperforms its benchmark. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	7 €

Charges for other fund unit classes/types may differ from those presented in the table above.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product does not have any minimum recommended investment period, but the product is meant for medium-term investing and the minimum recommended investment period is 5 years. The minimum recommended investment period is based on the risk/return profile of the investment vehicle. If you dispose of the investment vehicle before the minimum recommended investment period, there will be a greater risk for the value fluctuation of the investment vehicle.

How can I complain?

If you would like to file a complaint related to either the product or the actions of the PRIIP product's developer, seller or advisor, you can do so on our website at www.op.fi or send your complaint in writing to OP Fund Management Company Ltd, Gebhardinaukio 1, 00510 Helsinki or by email to op-rahastoyhtio@op.fi or call +358 (0) 10 252 7051.
