## What is this type of insurance?

SuperEuro is a fixed-term travel policy. You can select a period for the policy's validity. However, this period may not be longer than three months. Travel insurance consists of traveller's insurance, covering personal injuries, and luggage insurance, and you can choose either only one of them or both. Traveller's insurance compensates, for example, treatment expenses caused by travel illness or accident, while luggage insurance compensates losses to property taken along for your journey. Luggage insurance always includes travel liability and legal expenses travel insurance. Luggage insurance covers the luggage of the insured person and any accompanying family members living in the same household. Traveller's insurance also covers family members and grandchildren under 15 years travelling with the insured person. Traveller's insurance can be granted for persons under the age of 86 who live permanently in Finland.

## Where am I covered?

- ✓ Supereuro Travel Insurance is valid in the areas chosen when the policy was taken out. Do remember to check the high-risk areas where insurance coverage has been limited.

A journey abroad begins when you leave your home, workplace, study place or holiday home in order to continue directly to the destination outside Finland. A journey abroad ends when you return from abroad directly to any of the above places.

In Finland, the insurance is valid on trips to places which are more than a straight-line distance of 50 kilometres from the home, place of work or study, or holiday home. However, trips between these places are not insured. A domestic trip begins when you leave your home, workplace, study place or holiday home in Finland and ends when you return to any of the aforementioned places.

## What are my obligations?

- The correct information must be provided when applying for the insurance.
- The insurance company must be informed if any information you submitted when applying for the policy or what is entered in the policy document is not complete or if significant changes have taken place. Let us know if you move abroad.
- The safety regulations issued by the insurance company about loss prevention and limitation of luggage must be followed.
- If you fall ill during your journey, go to the doctor's during the journey or latest 14 days after the end of your journey.
- The information requested must be provided when claiming compensation.

## When and how do I pay?

The insurance premium must be paid by the due date.

## When does the cover start and end?

A fixed-term travel insurance policy comes into effect no earlier than the moment it has been paid for. The insurance ends on the date entered in the policy document. Coverage will end earlier than this if the policyholder terminates the insurance. The insurance company also has the right to terminate the insurance cover under certain conditions.

## How do I cancel the contract?

A policy cannot be terminated if the validity period entered on the policy document is less than 30 days. Otherwise, the policyholder has the right to terminate the insurance contract at any time. The policy will terminate when a written notification has been sent or otherwise submitted to the insurance company, unless the policyholder has specified a later termination date. A premium will then be charged for the period of validity of the insurance, however, never less than the minimum premium. You may not terminate the insurance policy by telephone.
