

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

OP-Forest Owner Fund, B-share class (ISIN: FI4000108436)

This fund is managed by OP Fund Management Company Ltd, which is part of the OP Group.

Objectives and Investment Policy

OP-Forest Owner Fund is an AIF fund that invests in real estate and targets long-term capital appreciation, by investing sustainably and in compliance with the Fund rules.

The Fund makes sustainable investments (Article 9 of Regulation (EU) 2019/2088 SFDR) focusing on environmental issues. The fund prioritises investments that are expected to have a positive impact on climate change, biodiversity and human wellbeing. For more information about how the Fund integrates sustainability factors, see the fund prospectus.

The fund mainly invests its assets in forest estates located in Finland. The Fund may also invest in forest estates in the European Economic Area. It may also make indirect investments into forest estates. The Fund aims to make most of its earnings from the sale of timber growing on its forest estates. The Fund may also try to achieve earnings by developing, parcelling out or zoning the forest estates it owns or by utilising the soil or any leisure-time values. The Fund may also invest in fixed-income securities for the purpose of cash management and temporary asset investments.

The Fund may invest its assets in derivative contracts and OTC derivatives in order to hedge against the risk of adverse market movements, to replace direct investments and to otherwise promote effective portfolio management.

The Fund may invest in fixed income securities either directly or through mutual funds or special common funds, or by making deposits with credit institutions.

All costs arising from maintaining, owning and trading buildings and expert services used in property trading, which may have a substantial effect on the Fund's return, will be paid using the Fund's assets.

As an AIF fund, the Fund may deviate from the provisions of the Act on Common Funds with respect to investment assets, their diversification, the Fund's NAV calculation, the Fund's opening hours and borrowing.

The Fund uses an absolute Value at Risk (VaR) analysis to monitor total risk. The Fund's VaR may not exceed 20 percent of the Fund's value. More information on VaR calculation can be found in OP Fund Management Company's fund prospectus.

The Fund annually distributes at least 75 % of its net return to its unitholders.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 6 years.

Investors subscribe for and redeem fund units on the last banking day of each quarter. Redemption orders must be made by the end of the previous quarter (at least 3 months in advance). The redemption process may last a longer time if the fund's assets need to be realised to pay for redemptions. If the fund management company receives the subscription order by 4 pm on the last banking day of the quarter, the subscription will be executed at the fund unit value confirmed for the same banking day.

Risk and Reward Profile

The synthetic risk and reward indicator (SRRI) describes the risk of NAV fluctuation of units in the fund based on the actual fluctuation over the five preceding years. The indicator places the fund in category 4, which means that there is a moderate risk of NAV fluctuation associated with the fund unit. It should be noted that even the lowest risk category of 1 does not mean a risk-free investment. Historical data, such as those used in the calculation of the synthetic risk-reward indicator, do not necessarily give a reliable view of the future, and therefore the risk category of the fund may also change.

Interest rate risk, liquidity risk and market area risk form the key risks associated with the NAV performance of the Fund.

Interest rate risk may cause changes to the Fund's value when the general interest rate rises or falls. Changes in interest rates usually have a reverse effect on the Fund's value, i.e. a rise in the interest rate has a negative effect and a fall in the interest rate has a positive effect on the present value of investments.

Liquidity risk associated with the Fund refers to a situation in which the Fund's investments cannot be converted into cash within a desired period or at a reasonable price. Liquidity risk may play a pronounced role in a weak market situation, in which case the volume of trading may decrease considerably.

The Fund's investments focus on a limited market area, which means that risks associated with the area are emphasised and the value performance of investments may significantly differ from general market development.

Charges for this Fund

Fees paid by investors are used to cover the fund's operating costs, such as marketing and distribution costs. These costs reduce the possible return on the investment.

One-off charges taken before or after you invest

Entry charge 4.00%

Exit charge 5.00%

Subscription and redemption fees are credited fully to the fund to cover related trading costs. The redemption fee is 1-5 % depending on the holding duration.

These are maximum fees that may be charged for the investment when units are subscribed for or redeemed.

Charges taken from the fund over a year

Ongoing charges 1.73%

For more detailed information on fees can be found out in the price list, and from the management company or its agents.

The ongoing charges figure is based on expenses for the half-year ending 30th June 2022. The figure may vary from year to year. It excludes: Performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in other funds. Ongoing charges also do not include management and regeneration costs of forests owned by the Fund. For more information about charges, please see section Price List of the Prospectus, which is available at www.op.fi.

Charges taken from the fund under specific conditions

Performance fee No performance fee is charged for this Fund.

Past Performance

Historical returns are not a guarantee of future returns.

Subscription and redemption fees credited to the fund increase the returns of the fund while management fees charged by the management company reduce it. These fees are taken into account in the adjacent chart.

The Fund was launched in 2014.

The currency in which the past performance has been calculated is euro.

The fund has no official benchmark index.

Practical Information

The custodian of the Fund is OP Custody Ltd.

Further information on the fund is available at the website of the OP-Pohjola Group at www.op.fi or the nearest co-operative bank, where you can have the prospectus, monthly report and annual report of the OP funds.
