

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

OP-Finland Fund, A-share class (ISIN: FI0008800206)

This fund is managed by OP Fund Management Company Ltd, which is part of the OP Group.

Objectives and Investment Policy

OP-Finland is an equity fund which invests its assets mainly in the equities of companies in the Finnish equity market whose return potential consists of dividends and value performance.

The Fund promotes environmental and social characteristics and, to ensure it, uses environmental, social and governance (ESG) analysis and excludes certain investments. For more information about the ESG methods used, see the fund prospectus. The “do no significant harm” principle applies only to those investments underlying the fund that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this fund do not take into account the EU criteria for environmentally sustainable economic activities.

With regard to their potential, the investment vehicles are inexpensive in terms of valuation, structural winners and/or pay attractive dividends.

The Fund mainly invests directly in equities. The Fund may use derivative instruments in order to hedge against adverse market movements, to replace direct investments and to otherwise promote effective portfolio management.

The Fund diversifies its equity investments across various companies. The Fund typically invests in equities of about 30–50

companies but this number may vary depending on the portfolio manager’s view.

Since the Fund may also concentrate its investments on a sector-specific basis, the success of the sectors in question may have an effect on the Fund’s value performance.

The Fund’s benchmark index is OMX Helsinki Benchmark Cap. With active investing, the Fund seeks to outperform its benchmark index in the long term. The Fund mainly takes notable active risk and it may differ significantly from the composition, weights and risk level of the benchmark index.

The Fund uses a relative Value at Risk (VaR) analysis to monitor total risk. The Fund’s VaR may not be more than double the benchmark portfolio’s VaR. More information on VaR calculation can be found in OP Fund Management Company’s fund prospectus.

Any income received from the investments of the fund is reinvested in the fund.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 7 years.

Shares in the mutual fund can be purchased, sold or changed Each Banking Day. If the execution order is received by 16:00:00’, the order is executed to the value of the order date.

Risk and Reward Profile

The synthetic risk and reward indicator (SRRI) describes the risk of NAV fluctuation of units in the fund based on the actual fluctuation over the five preceding years. The indicator places the fund in category 6, which means that there is a high risk of NAV fluctuation associated with the fund unit. It should be noted that even the lowest risk category of 1 does not mean a risk-free investment. Historical data, such as those used in the calculation

of the synthetic risk-reward indicator, do not necessarily give a reliable view of the future, and therefore the risk category of the fund may also change.

Equity market risk and market area risk form the key risks associated with the NAV performance of the Fund.

Equity market risk may cause changes to the Fund’s value because of general stock market developments or changes related to an individual company.

The Fund’s investments focus on a limited market area, which means that risks associated with the area are emphasised and the value performance of investments may significantly differ from general market development.

Charges for this Fund

Fees paid by investors are used to cover the fund's operating costs, such as marketing and distribution costs. These costs reduce the possible return on the investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	1.00%

These are maximum fees that may be charged for the investment when units are subscribed for or redeemed.

Charges taken from the fund over a year

Ongoing charges	1.60%
------------------------	-------

Charges taken from the fund under specific conditions

Performance fee	No performance fee is charged for this Fund.
------------------------	--

For OP's owner-customers, the subscription and redemption fee is 0.00%. For more detailed information on fees can be found out in the price list, and from the management company or its agents.

The ongoing charges figure is based on expenses for the half-year ending 30th June 2022. The figure may vary from year to year. It excludes: Performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in other funds. For more information about charges, please see section Price List of the Prospectus, which is available at www.op.fi.

Past Performance

Historical returns are not a guarantee of future returns.

Subscription and redemption fees are not taken into account in the return. The management fee is taken into account (deducted) in the return.

The Fund was launched in 1994.

The currency in which the past performance has been calculated is euro.

The benchmark of the Fund is OMX Helsinki Benchmark Cap.

The Fund's benchmark index was OMX Helsinki Cap Yield until 01.01.2019.
