## Investment policy

OP-Finland Small Firm (Fund) is an equity fund which mainly invests its assets in equities of listed SMEs in the Finnish equity market. The Fund may also invest a maximum of a quarter of its value in the equities of small and mid-cap companies in the rest of the Western European equity market. The Fund mainly invests directly in equities. The Fund may use derivative instruments in order to hedge against adverse market movements, to replace direct investments and to otherwise promote effective portfolio management. The Fund diversifies its equity investments across various companies. The Fund typically invests in equities of about 30–50 companies but this number may vary depending on the portfolio manager's view. In its investment decisions, the Fund focuses on the portfolio manager's view of individual companies, weightings between different sectors and between value and growth shares.

The investments underlying this fund do not take into account the EU criteria for environmentally sustainable economic activities. However, this fund integrates sustainability risks using the methods specified in the fund prospectus.

## Portfolio manager

Teemu Salonen, Lauri Tillman

## Responsibility

### Responsible investing

The fund follows [OP Asset Management's principles for responsible investment](#). The consideration of responsibility in the investment analysis and decision making provides additional information in addition to the traditional financial and market information. The significant aspects of responsibility can in the long run affect the financial success of the investment objects and thus the return.

### Exclusion

The fund excludes from its active, direct investments manufacturers of controversial weapons, mining companies that produce coal, electricity companies that use charcoal and companies that have violated international standards, and which have not been susceptible to impact. [The list of excluded investment items](#) is public.

### Active ownership

OP's funds participate in domestic and foreign general meetings in accordance with [OP Fund Management Co's Ownership Policy](#), which takes responsibility into account. All in all, OP's funds participate annually in more than one thousand general meetings. OP Funds utilize the Annual General Meetings Institutional Shareholder Services Annual General Meeting analysis.

### Violation of international standards

International standards, such as the UN Global Compact, set the minimum level of responsible business operations. OP Asset Management affects through OP funds that make active, direct investments such companies that are considered to have violated international standards. The goal is to get companies that have violated the standards to change their business and start to comply with the international standards in their business. We use external service provider to identify violations of international standards.

### Thematic impact

OP Asset Management also affects companies through various themes of responsibility, such as issues related to climate change.

Read more about the OP Funds' practical ownership influence in [the overview of responsible investment](#) that is published twice a year.

## ESG analysis

ESG risk level AA

Total ESG score	7.5
Environment (E)	5.2
Social (S)	5.4
Governance (G)	7.2

The ESG risk level indicates how well the companies included in the portfolio take account of the risks and opportunities related to environmental concerns, social concerns and corporate governance concerns relative to their sector. The companies are scored from 0 to 10 and then divided into seven ESG risk-level categories (AAA–CCC). The higher the score, the better the company included in the portfolio has prepared for ESG risks and opportunities.

### Distribution of companies' ESG risk levels

Carbon intensity 67.9  
greenhouse gas emissions in  
tonnes / turnover (\$M)

Coverage 82.0 %

The portfolio's carbon intensity is the weighted average of the portfolio companies' carbon dioxide intensity. The carbon footprint takes into account companies' greenhouse gas emissions in tonnes at level 1 and level 2 in relation to the company's turnover (million dollars).

### The portfolio's ESG analysis in relation to reference portfolios

	ESG	Carbon intensity	Green revenues
Portfolio	7.5	67.9	6.2
World	6.8	118.9	6.1
Europe	7.9	87.3	4.6
Finland	8.8	150.2	9.0

Green revenues 6.2 %  
Renewable energy 2.8 %  
Energy efficiency 1.0 %  
Environmentally friendly construction 0.2 %  
Sustainable use of water resources 0.2 %  
Prevention of pollution 1.0 %

The portfolio's green revenues examines how the portfolio companies' products and services have an impact on the environment. The number describes the proportion of products and services with a positive environmental impact on portfolio companies' turnover.

The purpose of the monthly report is to provide its readers with information on the funds and their performance. Information provided in the report is no investment advice and no investment decisions should be made based on such information. The Key Investor Information Document for investors and the fund prospectus as well as the fund's annual report and half-yearly report are the documents that investors should read before making any subscription for fund units.
