Investment policy

OP-World Index is a passive index fund that invests assets according to the MSCI World ESG Universal Net Index in large listed companies diversified on a global basis. This means that the fund's investments are split between the countries and businesses of the benchmark index in the same proportion as in the index. Since the fund aims to generate the same returns as the benchmark index, it only keeps a small portion in cash for the purposes of redemptions. In order to lower its trading needs arising from redemptions and subscriptions, the fund may to a limited extent use derivative instruments in portfolio management. Since the fund's assets are invested in large-cap stocks, its investments can be highly concentrated on certain sectors, such as finance and industry. The fund's trading costs are relatively low as changes to the portfolio are basically only made once a year in conjunction with index adjustments.

The Fund promotes environmental and social characteristics and, to ensure it, uses environmental, social and governance (ESG) analysis and excludes certain investments. For more information about the ESG methods used, see the fund prospectus. The "do no significant harm" principle applies only to those investments underlying the fund that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this fund do not take into account the EU criteria for environmentally sustainable economic activities.

Portfolio manager

OP Asset Management Ltd

Responsibility

Responsible investing

The fund complies with [OP Asset Management's principles for responsible investment](#) where applicable.

Active ownership

OP's funds participate in domestic and foreign general meetings in accordance with [OP Fund Management Co's Ownership Policy](#), which takes responsibility into account. All in all, OP's funds participate annually in more than one thousand general meetings. OP Funds utilize the Annual General Meetings Institutional Shareholder Services Annual General Meeting analysis.

Thematic impact

OP Asset Management also affects companies through various themes of responsibility, such as issues related to climate change.

Read more about the OP Funds' practical ownership influence in the [overview of responsible investment](#) that is published twice a year.

ESG-analysis

ESG-rating	AA	Carbon intensity	130.8	Green revenues	5.4 %
Total ESG score	7.3	greenhouse gas emissions in tonnes / turnover (\$M)		Renewable energy	0.8 %
Environment (E)	6.8	Coverage	100.0 %	Energy efficiency	3.8 %
Social (S)	5.4			Environmentally friendly construction	0.4 %
Governance (G)	5.9			Sustainable use of water resources	0.1 %
				Prevention of pollution	0.2 %

The ESG score indicates how well the portfolio's target companies take into account risks and opportunities related to the environment, social aspects and good governance in relation to their industry. The score scale is 0-10. After that, the score is divided into 7 classes. The higher the score, the better the portfolio companies have prepared for the risks and opportunities associated with ESG.

The portfolio's carbon intensity is the weighted average of the portfolio companies' carbon dioxide intensity. The carbon footprint takes into account companies' greenhouse gas emissions in tonnes at level 1 and level 2 in relation to the company's turnover (million dollars).

The portfolio's green revenues examines how the portfolio companies' products and services have an impact on the environment. The number describes the proportion of products and services with a positive environmental impact on portfolio companies' turnover.

Companies' ESG classification

The portfolio's ESG analysis in relation to reference portfolios

AAA = excellent, AA = very good, A = good, BBB = average, BB = satisfied, B = weak, CCC = very weak

The purpose of the monthly report is to provide its readers with information on the funds and their performance. Information provided in the report is no investment advice and no investment decisions should be made based on such information.
