Investment policy

OP-Sustainable World is a balanced fund which mainly invests its assets in global equity and bond markets. In its investments, the fund applies unusual weightings and restrictions. It does not invest in certain products, services or functions that can be considered hazardous to health or addictive. Investment in certain functions regarded as socially, societally or environmentally harmful has also been restricted. We update our criteria for exclusion whenever required as a result of developments in the operating environment. We analyse companies' practices from the CSR perspective as well. Only companies which rank among the best ones in their sectors in terms of environmental, social and governance aspects on the whole can be admitted to the fund. The Fund's investments in fixed income instruments may account for 30–70% of the Fund's value and those in equity-linked instruments for 30–70%. In its investment operations, the Fund may use derivative instruments in order to hedge against the risk of adverse market movements, to replace direct investments and to promote otherwise effective portfolio management. Derivatives are chiefly used to manage equity and interest rate risks. The focus is on fixed income instruments issued by public institutions and companies with a good credit rating. Moody's Baa3 or S&P BBB- represents the minimum rating for issuers. The Fund may also to a limited extent invest its assets in fixed income instruments issued by issuers with a lower credit rating or by non-rated issuers. The Fund makes its fixed income investments mainly in fixed income instruments issued by public-sector entities and companies in the European and OECD bond markets.

Portfolio manager

J. Asikainen, M. Saarinen

Responsibility

Responsible investing

The fund follows [OP Asset Management's principles for responsible investment](#). The consideration of responsibility in the investment analysis and decision making provides additional information in addition to the traditional financial and market information. The significant aspects of responsibility can in the long run affect the financial success of the investment objects and thus the return.

Read more about the OP Funds' practical ownership influence in [the overview of responsible investment](#) that is published twice a year.

ESG analysis

ESG-rating	AA	Carbon intensity	77,0	Green revenues	6,2 %
		greenhouse gas emissions in tonnes / turnover (\$M)		Renewable energy	0,6 %
Total ESG score	8,4	Coverage	95,9 %	Energy efficiency	2,5 %
Environment (E)	7,4			Environmentally friendly construction	2,5 %
Social (S)	5,9			Sustainable use of water resources	0,5 %
Governance (G)	5,8			Prevention of pollution	0,1 %

The ESG score indicates how well the portfolio's target companies take into account risks and opportunities related to the environment, social aspects and good governance in relation to their industry. The score scale is 0-10. After that, the score is divided into 7 classes. The higher the score, the better the portfolio companies have prepared for the risks and opportunities associated with ESG.

The portfolio's carbon intensity is the weighted average of the portfolio companies' carbon dioxide intensity. The carbon footprint takes into account companies' greenhouse gas emissions in tonnes at level 1 and level 2 in relation to the company's turnover (million dollars).

The portfolio's green revenues examines how the portfolio companies' products and services have an impact on the environment. The number describes the proportion of products and services with a positive environmental impact on portfolio companies' turnover.

Companies' ESG classification

The portfolio's ESG analysis in relation to reference portfolios

AAA = excellent, AA = very good, A = good, BBB = average, BB = satisfied, B = weak, CCC = very weak

The purpose of the monthly report is to provide its readers with information on the funds and their performance. Information provided in the report is no investment advice and no investment decisions should be made based on such information. The Key Investor Information Document for investors and the fund prospectus as well as the fund's annual report and half-yearly report are the documents that investors should read before making any subscription for fund units. Information in this document is not complete and it is updated on a monthly basis. The information in the report is the latest information on the funds at the time of preparing the report. Copying and distributing the information in the report is prohibited. Changes in the report will not be informed separately. OP Fund Management Company Ltd has compiled and provided the information presented in the report. OP Fund Management Company Ltd does not guarantee that the information presented in the report is correct, perfect or up to date or is not liable for any direct or indirect costs, damage or losses that use of the information presented in this material may cause. The star rating in this report is produced by Morningstar and it is updated every month. The historical performance of the funds is no guarantee of future performance. The values of fund units may vary considerably due to the composition of their investments and the methods used in their management. The fund prospectus describes in greater detail the risks associated with the fund. Fund publications regarding the funds are available at op.fi and OP's branches.
