Investment policy

OP-Finland Micro Cap Fund a non-UCITS fund which invests its assets mainly in the equities of listed companies in the Finnish equity market whose market capitalisation is less than 500 million euros. A maximum of 20 per cent of the Fund's value may also be invested in unlisted equities. The Fund may invest a maximum of 25 per cent of its assets in European companies. The Fund diversifies its investments in equities of various companies whose market capitalisation on the date of investment is less than 200 million euros. The Fund's investments are mainly based on direct equity investments and direct fixed-income investments, but investments may also be made in funds that invest in unlisted companies, as well as in portfolio companies' bonds to replace direct equity investments. The size of investments in unlisted companies depends on the Fund's size and liquidity. The target weight for unlisted investments is 10–15%. The Fund typically invests in equities of 30–50 companies but this number may vary depending on the portfolio manager's view. The Fund may use derivative instruments in order to hedge against adverse market movements, to replace direct investments and to otherwise promote effective portfolio management. The Fund's benchmark index is OMX Helsinki Small Cap Total Return Index (EUR). With active investing, the Fund seeks to outperform its benchmark index in the long term. The Fund mainly takes high active risk and may differ very significantly from the composition, weights and risk level of the benchmark index.

Portfolio manager

Teemu Salonen, Antti Karessuo

Responsibility

Responsible investing

The fund follows [OP Asset Management's principles for responsible investment](#). The consideration of responsibility in the investment analysis and decision making provides additional information in addition to the traditional financial and market information. The significant aspects of responsibility can in the long run affect the financial success of the investment objects and thus the return.

Exclusion

The fund excludes from its active, direct investments manufacturers of controversial weapons, mining companies that produce coal, electricity companies that use charcoal and companies that have violated international standards, and which have not been susceptible to impact. [The list of excluded investment items](#) is public.

Active ownership

OP's funds participate in domestic and foreign general meetings in accordance with [OP Fund Management Co's Ownership Policy](#), which takes responsibility into account. All in all, OP's funds participate annually in more than one thousand general meetings. OP Funds utilize the Annual General Meetings Institutional Shareholder Services Annual General Meeting analysis.

Violation of international standards

International standards, such as the UN Global Compact, set the minimum level of responsible business operations. OP Asset Management affects through OP funds that make active, direct investments such companies that are considered to have violated international standards. The goal is to get companies that have violated the standards to change their business and start to comply with the international standards in their business. We use the company Sustainability as a service provider to identify violations of international standards.

Thematic impact

OP Asset Management also affects companies through various themes of responsibility, such as issues related to climate change.

Read more about the OP Funds' practical ownership influence in [the overview of responsible investment](#) that is published twice a year.

ESG analysis

ESG-rating

-

Total ESG score

-

Environment (E)

-

Social (S)

-

Governance (G)

-

The ESG score indicates how well the portfolio's target companies take into account risks and opportunities related to the environment, social aspects and good governance in relation to their industry. The score scale is 0-10. After that, the score is divided into 7 classes. The higher the score, the better the portfolio companies have prepared for the risks and opportunities associated with ESG.

Companies' ESG classification

- AAA
- AA
- A
- BBB
- BB
- B
- CCC

Carbon intensity

-

greenhouse gas emissions in tonnes / turnover (\$M)

Coverage

-

The portfolio's carbon intensity is the weighted average of the portfolio companies' carbon dioxide intensity. The carbon footprint takes into account companies' greenhouse gas emissions in tonnes at level 1 and level 2 in relation to the company's turnover (million dollars).

Positive environmental impact

-

Renewable energy

-

Energy efficiency

-

Environmentally friendly construction

-

Sustainable use of water resources

-

Prevention of pollution

-

The portfolio's positive environmental impact examines how the portfolio companies' products and services have an impact on the environment. The number describes the proportion of products and services with a positive environmental impact on portfolio companies' turnover.

The portfolio's ESG analysis in relation to reference portfolios

| | ESG | Carbon intensity | Positive environmental impact |
|-----------|---|---|---|
| Portfolio | - | - | - |
| World | 5,9  | 178,2  | 3,6  |
| Europe | 7,3  | 147,4  | 3,3  |
| Finland | 7,3  | 329,5  | 8,2  |

AAA = excellent, AA = very good, A = good, BBB = average, BB = satisfied, B = weak, CCC = very weak

The purpose of the monthly report is to provide its readers with information on the funds and their performance.
