Further information:	<p>1 Scheme for deposit insurance and maximum amount</p> <p>Deposits are within the scope of statutory deposit insurance.</p> <p>Member credit institutions within OP Financial Group and the central cooperative are jointly and severally liable for each other's deposits and other commitments in accordance with the Act on the Amalgamation of Deposit Banks. Deposit insurance protects the funds of depositors if they are not available in case the entire amalgamation gets into permanent financial difficulties.</p> <p>The maximum coverage is 100,000 euros. This means that the amount of coverage is determined by adding up all deposits of one depositor with OP Financial Group. For example, if the depositor has funds worth 90,000 euros in a savings account with a member cooperative bank and funds worth 20,000 euros in a current account with another member cooperative bank, (s)he is entitled to a total coverage of only 100,000 euros.</p> <p>2 Deposit insurance on funds related to selling/buying a home</p> <p>Deposit insurance covers funds received from selling a home in full for six months if the funds are to be used to buy a new home. In such a case, the depositor's receivable will be paid in full if the depositor can reliably prove that the receivable is based on the funds that (s)he has received from selling a home in his/her personal use and that the funds will be used to buy a home for the depositor's personal use. These funds from selling a home enjoy special protection described above for six months of the date of making the deposit.</p> <p>Further information: http://talletussuoja.fi.</p> <p>3 In the case of compensation</p> <p>In Finland, the Financial Stability Authority is in charge of deposit insurance.
