Financial Supervisory Authority is responsible for supervising OP-Fund Management Company Ltd in relation to this Key Information Document.

This PRIIP is authorised in Finland.

OP-Fund Management Company Ltd is a part of OP Financial Group.

Publishing date of the KID 19 Jan 2024

What is this product?

Type

This product is a fixed income fund (UCITS).

Term

The product is an open ended product without a maturity date. The manufacturer is entitled to terminate the product unilaterally. The product cannot be terminated automatically.

Objectives

OP-Inflation-Linked Bond Fund is a long-term fixed-income fund investing its funds primarily in bonds issued by EEA and OECD member states and other public sector entities. This means that the fund seeks to achieve returns in real terms in spite of inflation. The Fund invests primarily in countries such as Australia, Sweden, Germany, Canada, France, New Zealand, Great Britain and United States. The fund's investments are primarily made through direct bond investments, but the fund may also use derivatives to hedge against market fluctuations and to replace direct investments. Typically the fund invests its assets in issues of about 20-50 companies, but this number may vary reflecting the views taken by the portfolio manager. The Fund seeks to hedge any foreign exchange risk related to non-euro investments. The modified duration of the fund, a measure of its interest rate sensitivity, is typically 8-13. This indicates the negative NAV impact on the fund in terms of percentages, if the interest rate level rises by one percentage point. As the level of interest rates decreases, the NAV of the fund increases accordingly. The issuers must have long-term ratings of at least AA- or comparable. The Fund's portfolio management makes investment decisions based on the market view prevailing at the time. Portfolio management's analysis of the market view relative to the prevailing interest rate level and inflation expectations is emphasised in particular in the Fund's investment decisions.

The Fund's benchmark index is a combination of several indexes. The composition of the benchmark index is described in the fund prospectus. The fund seeks actively to outperform the return of its benchmark in the long term. The Fund mainly takes notable active risk and it may differ significantly from the composition, weights and risk level of the benchmark index. Any income received from the investments of the fund is reinvested in the fund.

The Fund promotes environmental and social characteristics by considering investments' ESG factors as part of the investment process and through the exclusion of certain investment options. For more information about the ESG methods used, see the fund prospectus. The principle of 'do no significant harm' is only applied to those investments included in the fund which integrate the EU's criteria for environmentally sustainable economic activities. The EU's criteria for environmentally sustainable economic activities are not integrated in terms of other investments included in this fund.

The Fund uses a relative Value at Risk (VaR) analysis to monitor total risk. The Fund's VaR may not be more than double the benchmark portfolio's VaR. More information on VaR calculation can be found in OP Fund Management Company's fund prospectus.

Shares in the fund can be purchased or sold on every banking day. If the execution order is received by 16:00, the order is executed to the value of the same banking day. Partial swing pricing may increase a fund unit's net asset value (NAV) fluctuation..

Intended retail investor

The product is aimed at investors without prior financial experience but who understand the basics of investing. The investor's main objective is to generate revenue. The product is suitable for investors who do not require capital protection. Investors are prepared to keep their investment for 3 years but want to retain the option to exit early if necessary.

The custodian of the Fund is OP Custody Ltd. The Fund's rules, prospectus and more information are available in the languages used to market the fund. The annual report and half-yearly report are available in Finnish. The documents are available free of charge at <https://www.op.fi/private-customers/savings-and-investments/funds> and at OP branches.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
← Lower risk			Higher risk →			
 <p>The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.</p>						

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are very unlikely to impact the capacity of OP-Fund Management Company Ltd to pay you. Other relevant risks not included in the risk indicator: currency risk, credit risk, interest rate risk. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		10,000 €	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose all of your investment.		
Stress	What you might get back after costs	6,445 €	7,346 €
	Average return each year	-35.55%	-9.77%
Unfavourable	What you might get back after costs	8,946 €	9,024 €
	Average return each year	-10.54%	-3.37%
Moderate	What you might get back after costs	10,094 €	10,416 €
	Average return each year	0.93%	1.37%
Favourable	What you might get back after costs	10,986 €	11,086 €
	Average return each year	9.86%	3.50%

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The figures shown include all the costs of the product itself, and include the costs of your advisor or distributor. The stress scenario shows what you might get back in extreme market circumstances. The RHP unfavourable scenario occurred for an investment between 31 Oct 2020 and 31 Oct 2023. The RHP moderate scenario occurred for an investment between 31 Mar 2016 and 31 Mar 2019. The RHP favourable scenario occurred for an investment between 30 Nov 2018 and 30 Nov 2021.

What happens if OP-Fund Management Company Ltd is unable to pay out?

The fund's assets belong to its unitholders and the Fund Management Company can only charge those expenses from the fund which under the fund rules are payable to the fund management company. If the Fund Management Company becomes insolvent, the fund's custodian must begin managing the duties of the Fund Management Company and, at the same time, immediately take measures for handing over the mutual fund's management to another fund management company or merging or terminating the mutual fund. Mutual fund investments do not fall within the scope of any compensation or guarantee schemes.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your product.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 euros is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	79 €	192 €
Annual cost impact (*)	0.79%	0.64%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.00% before costs and 1.37% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 €
Exit costs	0.25% of your investment before it is paid out to you.	25 €
Ongoing costs		
Management fees and other administrative or operating costs	0.50% of the value of the investment annually. This is an estimate based on the calculations of the party responsible for the product. This cost is taken into account in the daily price of the investment object.	50 €
Transaction costs	0.04% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. This cost is taken into account in the daily price of the investment object.	4 €
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 €

Charges for other fund unit classes/types may differ from those presented in the table above.

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

This product does not have any minimum recommended investment period, but the product is meant for medium-term investing and the minimum recommended investment period is 3 years. The minimum recommended investment period is based on the risk/return profile of the investment vehicle. If you dispose of the investment vehicle before the minimum recommended investment period, there will be a greater risk for the value fluctuation of the investment vehicle.

How can I complain?

If you would like to file a complaint related to either the product or the actions of the PRIIP product's developer, seller or advisor, you can do so on our website at www.op.fi or send your complaint in writing to OP Fund Management Company Ltd, Gebhardinaukio 1, 00510 Helsinki or by email to op-rahastoyhtio@op.fi or call +358 (0) 10 252 7051.
